<u>OFFICE</u>	Kiefer Hall Room 14
<u>OFFICE HOURS</u>	M W F Noon - 1 PM or by appointment
<u>TELEPHONE</u>	440-4245
<u>EMAIL</u>	rkido@chaminade.edu

Catalog Course Description

This course helps participants learn to design, analyze, and use accounting information systems. The course provides conceptual frameworks for understanding information systems as well as practical experience in the implementation and use of real-world accounting information software. Emphasis is placed on systems development and accounting applications design.

Course Objectives

This course prepares students to design, evaluate and analyze accounting information systems. Both theoretical aspects of systems analysis and design as well as practical experience with accounting software packages will be presented.

Accounting is a very difficult subject area. Consequently, students will be expected to contribute a significant amount of time outside of the classroom during the quarter. **It is expected that students will need to spend a minimum of 15 - 20 hours per week outside of class to succeed in this course.**

Grading and Assignments

Grades will be based on the following:

Homework	130 points
Software Project	100 points
Case Studies	100 points
Exams (2)	<u>200 points</u>
Total	<u><u>430 points</u></u>

Grades:	387 – 430 points	A
	344 – 386 points	B
	Below 344 points	C

Note that a grade of "C" will require the course to be repeated.

Homework

The homework as assigned on the attached course schedule is to be turned in on the class period following the date assigned. Each chapter's assignments are worth 10 points each. Late submissions will be adjusted accordingly.

Software Project

There are four projects contained in the "Computer Accounting with Microsoft Accounting 2007" which are to be completed. The projects are as follows:

Project 1: Fargo Medical Center	Page 305
Project 2: Student-Designed Service Business	Page 317
Project 3: Neymark's Sporting Goods	Page 433
Project 4: Student-Designed Merchandising Business	Page 449

These projects are due on the last day of class and are worth 25 points each.

Case Studies

A series of 10 case studies will be distributed during the term for which the students will be required to answer the "Assignments" section at the end of each case. The case studies are due on the last day of class and are worth 10 points each.

Exams

As indicated on the course schedule, there will be two exams worth 100 points each. Exams are take-home.
