

CHAMINADE UNIVERSITY MATH-211: CALCULUS II COURSE SYLLABUS – SPRING 2013
--

**Instructor:** Matthew Cochran  
**Email Address:** matthew.cochran@chaminade.edu  
**Office:** Henry Hall 7  
**Office Phone:** 739-8361  
**Course Time:** Tuesdays and Thursdays from 8:30 to 9:50  
 and Mondays from 5:20 to 6:10  
**Course Room:** Ching Hall 253  
**Prerequisites:** MATH-210: Calculus I or placement test  
**Required Text:** Larson and Edwards, *Calculus of a Single Variable*, 9<sup>th</sup> ed., Brooks/Cole,  
 Belmont CA, 2010. ISBN10: 0-547-20998-3  
**Other Materials:** Graphing calculator

**COURSE DESCRIPTION:**

This is the second part of a three-semester sequence on differential and integral calculus. Major topics include techniques of differentiation and integration of transcendental functions, differential equations, applications of integration, advanced techniques of integration, and infinite infinite series.

**EVALUATIONS AND GRADING SCALE:**

Exam 1 . . . . .	20%
Exam 2 . . . . .	20%
Exam 3 . . . . .	20%
Final . . . . .	20%
Quizzes. . . . .	20%
90% – 100% . . . . .	A
80% – 90% . . . . .	B
70% – 80% . . . . .	C
60% – 70% . . . . .	D
0% – 60% . . . . .	F

Incomplete grades (I) will be given in accordance with college regulations as outlined in the college catalog. Withdrawals (W) from the class are the responsibility of the student and deadlines are set by the college.

**EXAMS:**

There will be three exams and a final as part of the requirements for the course. Material for exams will be drawn primarily from quizzes and homework assignments. Hence, the best way to review for an exam is to review previous quizzes and homework assignments.

Make-up exams will only be given under extenuating circumstances beyond the student's control. Persons missing an exam due to illness or injury must present a doctor's certificate. Make-up exams must be completed within one week of the scheduled exam date or on the day the student returns to school (whichever comes first). Scheduling is the responsibility of the student.

**HOMEWORK:**

To be successful in this course, it is essential that you complete all homework assignments. Be prepared to spend three hours or more on homework every week. If you are having trouble, get help from the instructor or your classmates. Do not fall behind.

**QUIZZES:**

A quiz will be given most weeks. Material for the quizzes will be drawn from recent homework assignments. Hence, the best way to prepare for quizzes is to do homework. Quizzes may be given at the beginning of class, so show up on time. Make-up quizzes are not given.

**ATTENDANCE:**

Regular attendance is expected of all students. Read material prior to lecture. If a topic is still not clear after it has been discussed in class, ask questions. Time will be spent working through homework problems and reviewing for exams in addition to lecturing. You will work with partners in class. It is important that partners engage in discussion of their work and avoid working as isolated individuals.

**COURSE OBJECTIVES:**

At the completion of this course students should be able to:

1. Differentiate and integrate exponential, logarithmic, trigonometric, inverse trigonometric and hyperbolic functions.
2. Solve differential equations.
3. Find area, volume, arch length, and surface of revolution. Find work, moments, centers of mass, and centroids.
4. Evaluate integrals by the methods of integration by parts, trigonometric substitution, and partial fractions. Find limits by applying L'Hopital's rule. Evaluate improper integrals.
5. Find the sum of a series. Express repeating decimal as the ratio of two integers. Determine the convergence or divergence of infinite series. Represent functions by power series. Find Taylor or Maclaurin Series for a function.

**MUSIC DEVICES AND CELLPHONES:**

Unless specifically permitted by your instructor, use of music devices and cell phones is prohibited during all Natural Science and Mathematics classes at Chaminade, as it is discourteous and may lead to suspicion of academic misconduct. Students unable to comply will be asked to leave class.

**ADA ACCOMODATIONS:**

Students with special needs who meet criteria for the Americans with Disabilities Act (ADA) provisions must provide written documentation of the need for accommodations from CUH Counseling Center (Dr. June Yasuhara, 735-4845) by the end of the third week of classes. Failure to provide written documentation will prevent your instructor from making necessary accommodations. Please refer any questions to the Dean of Students and review procedures at:

[www.chaminade.edu/student\\_life/sss/counseling\\_services.php](http://www.chaminade.edu/student_life/sss/counseling_services.php)

**TENTATIVE WEEKLY SCHEDULE:**

Week	Date	L#	Lecture Topic	Reading
1	Jan 15	1	Intro; Differentiation of natural log	5.1
	Jan 17	2	Integration of natural log	5.2
2	Jan 22	<b>H1</b>	<b>Founder's Day – No Class</b>	
	Jan 24	3	Inverse functions	5.3
3	Jan 29	4	Exponential functions	5.4
	Jan 31	5	Other bases	5.5
4	Feb 05	6	Inverse trig functions	5.6 & 5.7
	Feb 07	7	Hyperbolic functions	5.8
5	Feb 12	<b>E1</b>	<b>EXAM 1 – Chapter 5</b>	
	Feb 14	8	Area	7.1
6	Feb 19	9	Volume: Disk method	7.2
	Feb 21	10	Volume: Shell method	7.3
7	Feb 26	11	Arc Length	7.4
	Feb 28	12	Work	7.5
8	Mar 05	13	Center of mass	7.6
	Mar 07	14	Pressure	7.7
9	Mar 12	<b>E2</b>	<b>EXAM 2 – Chapter 7</b>	
	Mar 14	15	Integration rules	8.1
10	Mar 19	16	Integration by parts	8.2
	Mar 21	17	Trig integrals	8.3
–	Mar 26 Mar 28	<b>H2</b>	<b>Spring Break</b>	
11	Apr 02	18	Trig substitution	8.4
	Apr 04	19	Partial fractions	8.5
12	Apr 09	20	Integration tables	8.6
	Apr 11	21	L'Hopital's Rule	8.7
13	Apr 16	22	Improper integrals	8.8
	Apr 18	23	Review	
14	Apr 23	<b>E3</b>	<b>EXAM 3 – Chapter 8</b>	
	Apr 25	24	Slope fields	6.1
15	Apr 30	25	Growth and decay	6.2
	May 02	26	Review	
Tues	May 07	<b>FE</b>	<b>FINAL EXAM – 8:30 to 10:30 – Cumulative</b>
