Course Objectives

To further the student's knowledge of the discipline of criminology by disseminating information on the Criminal Justice System to a community or educational entity through service. Students will be required to maintain journals and to develop a position paper, which reflects on their service learning experience. The paper should reflect knowledge of content matter, research methods, statistics and grammar appropriate to a graduating senior of criminal justice. An oral report on the project should reflect ability in organization, delivery and self-confidence in public speaking.

At the end of the semester, students will take a comprehensive multiple-choice examination that does not reflect upon their grade. This examination will be used to assess the effectiveness of the Criminal Justice curriculum and the knowledge criminal justice majors have acquired over their course of study. This examination will not be used to determine the student's grade in this course or in any way affect the student's GPA.
