ART 350, Intermediate Ceramics  
Yukio Ozaki, Rm.Eiben 101

Objectives:

Introduction to wheel throwing and exploration of creative experiment in hand-building.

To develop a broader understanding of ceramics and it's technical knowledge.

To stimulate students in experimenting with form and design.

To promote inter-related values through creative thinking and commitment.

\*Repeating students must achieve technically and esthetically higher quality in projects.

Reading requirement: Some individual research is required on technical ceramics and on art appreciation in general.

Writing requirement: #1. Art show review or research on an **artist/culture**.  
#2. Learning achievement and review.  
#3. One page essay on your best work of the semester.

Oral requirement: Project ideas, work experience, technical information, critical thoughts, etc. must be explained at each project critique class. Plus/minus of points applied in relation to the projects.

Project requirement: 4 project (15 works) must be completed. Working toward creative solutions is highly valued instead of just making making wheel thrown pottery.

**The following three Projects Focal Points must be satisfied.**

- A. Traditional values. Includes technical excellence, traditional (Historical or Cultural subjects, practical efficiency, elegance of design, challenge to the degree of difficulty etc.
- B. Personal values. Includes creative originality and unique thinking, meaningful personal value, research value etc.
- C. Humanity and Global concerns. Includes expressive **messages** stimulating truly healthy values.
