CHAMINADE UNIVERSITY
MATH-211-02: CALCULUS II
COURSE SYLLABUS – SPRING 2017

Instructor: Matthew Cochran
Email Address: matthew.cochran@chaminade.edu
Office: Henry Hall Office 7
Office Phone: 739-8361
Course Time: Tuesday and Thursday from 8:30 to 9:50
Wednesday from 1:30 to 2:20
Course Room: Wesselkamper 120 or Ching Hall 223
Prerequisites: MATH-210: Calculus I or placement test
Required Text: Larson and Edwards**,** *Calculus of a Single Variable***,** 10th ed., Brooks/Cole, Belmont CA, 2013. ISBN-13: 978-1285060286 ISBN-10: 1285060288
Other Materials: Graphing calculator

COURSE DESCRIPTION:
This is the second part of a three-semester sequence on differential and integral calculus. Major topics include techniques of differentiation and integration of transcendental functions, differential equations, applications of integration, advanced techniques of integration, and infinite series.

EVALUATIONS AND GRADING SCALE:

Exam 1	20%
Exam 2	20%
Exam 3	20%
Final	20%
Quizzes and Homework	20%

90%	–	100%	A
80%	–	90%	B
70%	–	80%	C
60%	–	70%	D
0%	–	60%	F

Incomplete grades (I) will be given in accordance with college regulations as outlined in the college catalog. Withdrawals (W) from the class are the responsibility of the student and deadlines are set by the college.

EXAMS:
There will be three exams and a final as part of the requirements for the course. Material for exams will be drawn primarily from quizzes and homework assignments. Hence, the best way to review for an exam is to review previous quizzes and homework assignments.

Make-up exams will only be given under extenuating circumstances beyond the student's control. Persons missing an exam due to illness or injury must present a doctor's certificate. Make-up exams must be completed within one week of the scheduled exam date or on the day the student returns to school (whichever comes first). Scheduling is the responsibility of the student.

HOMEWORK:
To be successful in this course, it is essential that you complete all homework assignments. Be prepared to spend three hours or more on homework every week. If you are having trouble, get help from the instructor or your classmates. Do not fall behind.

QUIZZES:
A quiz will be given most weeks. Material for the quizzes will be drawn from recent homework assignments. Hence, the best way to prepare for quizzes is to do homework. Quizzes may be given at the beginning of class, so show up on time. Make-up quizzes are not given.

ATTENDANCE:
Regular attendance is expected of all students. Read material prior to lecture. If a topic is still not clear after it has been discussed in class, ask questions. Time will be spent working through homework problems and reviewing for exams in addition to lecturing. You will work with partners in class. It is important that partners engage in discussion of their work and avoid working as isolated individuals.

COURSE OBJECTIVES:
At the completion of this course students should be able to:

1. Differentiate and integrate exponential, logarithmic, trigonometric, inverse trigonometric and hyperbolic functions.
2. Solve differential equations.
3. Find area, volume, arch length, and surface areas. Find work, moments, centers of mass, and centroids.
4. Evaluate integrals by the methods of integration by parts, trigonometric substitution, and partial fractions. Find limits by applying L'Hopital's rule. Evaluate improper integrals.
5. Find the sum of a series. Express repeating decimal as the ratio of two integers. Determine the convergence or divergence of infinite series. Represent functions by power series. Find Taylor or Maclaurin Series for a function.

MUSIC DEVICES AND CELLPHONES:
Unless specifically permitted by your instructor, use of music devices or cell phones is prohibited during all Natural Science and Mathematics classes at Chaminade, as it is discourteous and may lead to suspicion of academic misconduct. Students unable to comply will be asked to leave class.

ADA ACCOMODATIONS:
Students with special needs who meet criteria for the Americans with Disabilities Act (ADA) provisions must provide written documentation of the need for accommodations from CUH Counseling Center (Dr. June Yasuhara, 735-4845) by the end of the third week of classes. Failure to provide written documentation will prevent your instructor from making necessary accommodations. Please refer any questions to the Dean of Students and review procedures at:

www.chaminade.edu/student_life/sss/counseling_services.php

TENTATIVE WEEKLY SCHEDULE:

Week	Date	L#	Lecture Topic	Reading
1	Jan 17	1	Intro; Differentiation of natural log	5.1
	Jan 19	2	Integration of natural log	5.2
2	Jan 24	3	Inverse functions	5.3
	Jan 26	4	Exponential functions	5.4
3	Jan 31	5	Other bases	5.5
	Feb 02	6	Inverse trig functions	5.6
4	Feb 07	7	More inverse trig functions	5.7
	Feb 09	8	Hyperbolic functions	5.8
5	Feb 14	9	Review	
	Feb 16	**E1**	**EXAM 1 – Chapter 5**	
6	Feb 21	10	Area	7.1
	Feb 23	11	Volume: Disk method	7.2
7	Feb 28	12	Volume: Shell method	7.3
	Mar 02	13	Arc Length	7.4
8	Mar 07	14	Work	7.5
	Mar 09	15	Pressure	7.7
9	Mar 14	16	Review	
	Mar 16	**E2**	**EXAM 2 – Chapter 7**	
10	Mar 21	17	Integration rules	8.1
	Mar 23	18	Integration by parts	8.2
–	Mar 28 Mar 30	**H2**	**Spring Break**	
11	Apr 04	19	Trig integrals	8.3
	Apr 06	20	Trig substitution	8.4
12	Apr 11	21	Partial fractions	8.5
	Apr 13	22	Integration tables	8.6
13	Apr 18	23	L'Hopital's Rule	8.7
	Apr 20	24	Improper integrals	8.8
14	Apr 25	25	Review	
	Apr 27	**E3**	**EXAM 3 – Chapter 8**	
15	May 02	26	Slope fields	6.1
	May 04	27	Growth and decay	6.2
Tues	May 09	**FE**	**FINAL EXAM – 8:30 to 10:30 – Cumulative**
