NUR 306
Nursing Care of the Maternal Newborn Family
Fall 2017

Course: NUR 306 Nursing Care of the Maternal Newborn Family

3 Credits (2 didactic, 1 clinical)

Course Coordinator and Instructor: Denise A. Hackman, MSN, RN

Office: Henry Hall Room 106 – Faculty area (106B)

Phone: 739-8572 (Office)

Email: denise.hackman@chaminade.edu

Office Hours: Posted on office door – see Course Scheduler in CANVAS to make appointments

Lecture hours: Tuesdays 08:30- 10:20 am

Clinical Days: Monday, Wednesday, Saturdays (may vary)

Simulation/Laboratory Days: Monday, Wednesday, Fridays, Saturdays (may vary)

CATALOG DESCRIPTION:

NUR 306 Nursing Care of the Maternal Newborn Family

This course provides a holistic approach to the study of maternal-newborn nursing concepts. Content includes normal and high-risk childbearing women and their neonates within a family context. Current research and ethical/legal principles are presented and applied in clinical practice. Maternal-newborn concepts are applied in the hospital maternity unit and the community. The course will prepare the student to deal with a range of health care needs and issues related to the childbearing family. The student will have the opportunity to integrate prior skills and knowledge regarding human development into culturally sensitive care. The student will continue to develop the ability to apply critical thinking, participate in classroom discussions, seminars, and case studies to add breadth and depth to their understanding of care of the childbearing family.

IMPORTANT NOTE:

NUR 306 has both a didactic and clinical section. Students must meet the requirements of both Co-course sections in order to pass this course. For ease in reading, this syllabus has been divided with didactic information separate from the clinical information. The clinical practicum evaluation is graded as Satisfactory or Unsatisfactory. Refer to the student handbook for the definition of what would be considered an unsatisfactory grade in clinical. You must pass Nursing 306 with an overall grade of “C” or better and receive a satisfactory evaluation in Clinical Practicum to pass the class. Failure in either will result in failure of the course with a course letter grade of “F” and you will not be permitted to continue in the nursing program progression. Final grade cumulative percentage in the gradebook **will not be rounded (i.e., 69.9% is 69%)**. Students are responsible for monitoring and calculating their own grade status in CANVAS.

Prerequisites:

BI 151 and BI 151L, BI 152 and BI 152L, CH 201 and CH 201L, CH 254 and CH 254L, MA 107, NUR 190, NUR 201, NUR 202, NUR 290, NUR 291. These courses build the foundation necessary for successful completion of NUR 306.

GOALS

The goals of the Nursing Program are congruent with the University's academic vision and are as follows:

1. Provide a four-year university program leading to a baccalaureate degree in nursing, in which students are able to achieve the knowledge, skills, and Marianist values necessary for professional nursing practice and leadership in health care;
2. Ensure an educational foundation in the biological, physical, and social sciences as well as in the humanities, all of which are essential to professional nursing practice;
3. Foster an attitude of intellectual and critical inquiry that promotes evidence-based practice;
4. Provide an educational experience that emphasizes engagement of students through active learning;
5. Create a collegial environment that fosters professional development of students including life-long learning, scholarship, and leadership;
6. Prepare students for professional nursing roles in a dynamic health care environment;
7. Prepare students to sit for the NCLEX examination and practice as a professional Registered Nurse; and
8. Provide a foundation for graduate study.

PROGRAM LEARNING OUTCOMES

Upon completion of the B.S. Degree in Nursing, the student will demonstrate the ability to:

1. Use the nursing process for comprehensive assessments of health and illness parameters in patients using developmentally, and culturally, appropriate approaches;
2. Provide safe, holistic, patient-centered care, across the health-illness continuum, across the lifespan, using state-of-the-art methodologies, and in all healthcare settings;
3. Engage in dialogue about contemporary issues in healthcare, effectively advocate in the interest of patients, and lead others in the professional nursing role;
4. Communicate and collaborate effectively with patients and professionals from a variety of disciplines;
5. Integrate research and reliable clinical evidence to inform their nursing practice;
6. Incorporate informatics and healthcare technologies into the practice of professional nursing;
7. Use the determinants of health, tools for measurement, and interventions for health promotion and disease prevention in populations; and
8. Describe the elements of health care policy and finance within a regulatory environment.

COURSE LEARNING OUTCOMES

Upon completion of this course the student will:

1. Interpret human responses to maternal-child conditions within a holistic and cultural context
2. Apply the nursing process to the childbearing family experiencing alterations from normal processes
3. Communicate effectively with the interdisciplinary team, patient, and family
4. Evaluate patient status by applying safety rights during administration of pharmacologic agents
5. Integrate normal growth and development stages in the care of families and infants
6. Evaluate the quality of care provided for families and their infants using evidence based resources
7. Apply ethical and legal principles in the care of families in the acute and community setting
8. Apply the principles of health promotion and health maintenance, as applicable, in the care of the childbearing family

Key progression in professional nurse practice: I= Introduced to the concept/skill D= Developing M= Mastered

Required Equipment:

- **iPads or laptop computers are required for class sessions. There are online modules, e-texts, and we will be doing activities requiring computer access.**
- **v-Sim- and Prep U comes with your text in a bundle.**
- **Access to ATI software system**
- **Cell phones may be used in class for participation activities only**

Guidelines for Communication

Email:

- Use the Chaminade email account provided.
- Always include a subject line.
- Remember without facial expressions some comments may be taken the wrong way. Be careful in wording your emails. Use of emoticons might be helpful in some cases.
- Use standard fonts.
- Special formatting such as centering, audio messages, tables, html, etc. should be avoided unless necessary to complete an assignment or other communication.

Mobile Phone calls & Texting:

Students and instructors may use phone calls and texting for communication during clinical hours only if facility policies permit. Email communication should be utilized during off hours unless a student has an emergency or is calling in for absence the day of clinical.

NUR 306 ATI:

The standardized testing provided by ATI during your nursing courses is not designed to be an NCLEX preparation program. The purpose of this standardized testing tool is to demonstrate content mastery and identify areas for improvement. Once you have identified your areas for improvement, ATI has provided a variety of tools to help you to remediate in the “focused review” section of the ATI Web site. The remediation starts when you identify your weak areas in the non-proctored examinations. However, if you do not take full advantage of these tools, you will remain weak in the identified areas. So, please take full advantage of the tools provided to help you finish the program strong. ATI does provide an NCLEX preparation program which is called Virtual ATI. You will have access to this program a few weeks prior to graduation, to help you prepare for your NCLEX exam.

For ATI RN Content Master Series: Proficiency Level Definitions

A student meeting the criterion for **Proficiency Level 1:**

- Is **expected to just meet** NCLEX-RN® standards in this content area. Should demonstrate a level of knowledge in this content area required to support academic readiness for subsequent curricular content.
- Should meet the absolute minimum expectations for performance in this content area.

A student meeting the criterion for **Proficiency Level 2:**

- Is **expected to readily meet** NCLEX-RN® standards in this content area.
- Should demonstrate a high level of knowledge in this content area that more than adequately supports academic readiness for subsequent curricular content.
- Should exceed minimum expectations for performance in this content area.

A student meeting the criterion for **Proficiency Level 3:**

- Is **expected to exceed** NCLEX-RN® standards in this content area.
- Should demonstrate a high level of knowledge in this content area that confidently supports academic readiness for subsequent curricular content.
- Should exceed most expectations for performance in this content area.

Policy Statement:

1. Prior to giving the proctored ATI examination in the course the student will be required to complete two practice exams. It is strongly recommended that one of these practice exams be completed in a 'simulated NCLEX' testing environment.
2. The student will take a proctored assessment upon completion and submission of assigned focused reviews.
3. If a student obtains a level 2 or above on the proctored ATI exam, the student will receive 100% for the ATI portion of the grade.
4. If a student obtains a level 1 on the proctored ATI exam, the student will receive 50% for the ATI portion of the grade.
5. If a student obtains below a level 1 on the proctored ATI exam, the student will receive 0% for the ATI portion of the grade.
6. No student will be offered a second attempt of an ATI proctored exam.
7. ATI proctored exams can be assigned a maximum of 10%.

Course exams: Exams will be created to reflect both the Program Learning Outcomes (PLO) and Course Learning Outcomes. Questions will require recall, critical thinking, and clinical reasoning. Questions will incorporate ATI focused review resources.

Medication calculation evaluation: Students are expected to self-evaluate safe medication calculation and administration. Practice math questions will be done in class and clinical, and there will be math questions on every exam. Math practice questions will be provided the first or second week of the semester, and a math assessment exam will be done on a scheduled date and

time by instructor. Specialty math calculations will be introduced over the semester and math calculations will be on every exam. The course coordinator and clinical instructors will refer students to math tutoring remediation if math calculation performance is not at an acceptable level.

The clinical section of this course is a satisfactory/unsatisfactory grade. The components of this grading will include:

Clinical evaluation tool: The course coordinator will distribute and discuss in first week of class.

Weekly Clinical Reflective Logs: The logs must be legible and HIPAA compliant. No actual patient or staff names or other identifiers can be used. **Please use the separate reflective log template posted in CANVAS.** Respond to each question carefully, then post to CANVAS in the appropriate assignment link and per your clinical instructors preference. All reflective logs must be submitted to the clinical instructor and course coordinator in the appropriate dropbox in CANVAS no later than two days (before midnight) after your clinical experience.

Community Assignment Reflective Logs: Follow specific site or event instructions using APA format: see CANVAS for additional instructions.

DAR Note: A DAR note will be completed individually and submitted to CANVAS following simulation day on campus. Please refer to CUH DAR policy and guidelines posted in CANVAS

Simulation Practice Observation Tool: Students provide their own observations of the group performance during the simulation scenario based on the designated areas of the form. The tool is used for the student to provide feedback on strengths and areas for improvement during the self - debriefing.

Clinical Paperwork: Clinical daily activity forms with Fall Risk and Skin Assessment forms, Safety Clinical Assessment Tool, charting, and specific organization documents.

Students should maintain copies of reflective journals in ePortfolio until after graduation.

Professional Article Presentation: The student will select or be assigned a current (within the last 5 years) maternal child, women's health or children's health related article. The student will present the article utilizing the provided guidelines during clinical conference time (5-10 minutes). The student may create a personal outline of the article, but must show evidence that they have read and prepared to discuss the article without reading word for word from the article. The topic presented will demonstrate written and verbal communication skills and the ability to gain knowledge of the utilization of evidenced based practice in nursing. Satisfactory rating equals "satisfactory" checked in the selected categories that pertain on the provided rubric. A copy of the article will be submitted to the CANVAS assignment link, and a hard copy given to the instructor during presentation. The instructor will complete and attach the grading rubric with

the final clinical evaluation. If the student does not meet the rubric criteria for satisfactory grading, the student may have the opportunity to re-do the presentation at the instructor's discretion

Course Grading:

There will be no extra credit, bonus questions, or rounding of grades in this course

Late assignments are highly discouraged. Students must inform instructor via email of any late assignments. Late written assignments in the didactic component of this course will not receive credit unless discussed with instructor in advance. Late assignments (e.g. weekly reflective log) in the lab/clinical portion of this course will not be accepted. Students are responsible to turn in their work on time even if they are not present in class.

Grading Scale:

A=90-100%

B= 80-89%

C=70-79%

D=60-69%

F=59% and below

SON Course Examination Policy states: In order to pass this course the student must obtain a 70% or higher cumulative average on the examinations in this course. Examinations to be included in the [70% exam policy for this course will include exams, and quizzes](#). Graded assignments overall must be successfully completed in order to pass this course. If the student fails to successfully complete all required assignments and/or does not have a cumulative score of at least 70% on all examinations in this course, the maximum grade obtained for the course will be 69%.

Overall Course Grading Percentage Equivalents

Assignments	Percentage/equivalent
Exam 1	15%
Exam 2	15%
Exam 3	15%
Exam 4 Cumulative	20%
Quizzes x 2	10% (5% each)
Prep U assignments	5%
Simulation Charting-Sim Lab DAR Note	1%
V-Simulation Prep Assignments for Sim Lab	1%
V-Simulation Prep Assignments Class	4%
Simulation Video Debriefing Feedback	1%
ATI proctored Maternal/newborn	10%
ATI clinical prep tutorials/Instructional Lab Prep	2%
ATI Remediation templates for practice forms A & B	1% (0.5 % each)
Total Percentage Points for course	100%

Clinical Course Grading Percentage Equivalents

Assignments	Points	Percentage/equivalent
Clinical Performance Evaluation	N/A	Pass/Fail
Simulation	N/A	Pass/Fail
Weekly Reflective Logs	N/A	Pass/Fail
Math Evaluations	100%	Evaluation clinical/class
Article Oral Presentation	14-20/20 = S	Pass/Fail
Total Points for clinical course		Pass or Fail

COURSE POLICIES:

- **All policies stated in the Chaminade University and Chaminade University School of Nursing handbooks are in effect in this course.**

- **Academic Honesty:**

Nursing students are responsible for promoting academic honesty in all educational settings. Nursing students represent Chaminade University and the School of Nursing and as such are expected to demonstrate professional, ethical behavior in the classroom, in laboratory settings, in the clinical setting, and in the community. The Chaminade student nurse shall be committed to the Marianist values and the core values of the School of Nursing.

Questions of unethical behavior or academic dishonesty in a particular class are first reviewed by the instructor, who must make a report with recommendations to the Dean for Nursing.

Punishment for academic dishonesty or unethical behavior will be determined by the instructor in collaboration with the Dean for Nursing and may range from an “F” for the work in question to an “F” for the course to suspension or dismissal from the program

- **Course Atmosphere:** This course is not strictly a lecture course. Some of the content will be presented in a lecture format; however, we will be discussing the assigned readings, sharing our reflections on what we’ve read and our own personal experiences, and working in small and large groups. Everyone’s participation is essential as we will learn and grow from the sharing that occurs. It is the expectation that students will come to lecture, lab or clinical prepared and ready to fully engage in learning.
- **Attendance: Class attendance is regarded as an essential part of the educational process**
Class is mandatory and students are expected to attend all classes. The classroom is a teaching and learning environment where there is an exchange of knowledge and experience, so it is essential that students attend class and actively participate in classroom activities to maximize individual learning. Students who are absent from class not only miss a part of the subject matter of the course but also diminish the opportunities for contributing to the learning environment for the entire class. Each student will be encouraged to develop a professional work ethic that reflects personal responsibility, initiative, and teamwork. Students should notify the instructor by phone or email when illness prevents them from attending class and make arrangements to complete missed assignments. Any student who stops attending class without officially withdrawing may receive a failing grade. Unexcused absences equivalent to more than a week of class may lead to a grade reduction for the course. Any absence of two weeks or more must be reported to the Associate Provost and the Records Office by the instructor.
- **Academic Conduct:** Please refer to and follow all policies and procedures included in the University and School of Nursing Student Handbook (available in hard copy and online) and carefully read all areas. Please pay attention to the sections that discuss plagiarism, classroom respect, student conduct, freedom of speech, and all academic policies regarding grading.

- **Assignments:** It is expected that assignments will be handed in on time. **No clinical assignments will be accepted past the set deadline.**
- **Writing policy:** All papers should demonstrate mastery of grammar, punctuation, spelling and syntax expected of college level students. Use of APA 6th edition is required for all papers. If you need writing assistance, please seek help from Student Support Services and the Academic Achievement Program at 735-4881 or Smarthinking.com. All papers are to be word processed, proofread, and solely the work of the author. All papers must be saved as a Word document and submitted in the appropriate drop box. You will need to save your weekly reflective logs to your ePortfolio. Please read information about plagiarism in your student handbook.
- **Testing policy:** Students are expected to take tests on the designated day. In case of an emergency, please contact the instructor prior to the test (voicemail and email) so that an alternate plan can be made. Failure to do so will result in a zero. If a test is to be made up, it must be taken before the next class. **Students must bring their own calculators- no sharing.** Approval for taking a make-up test must be granted by the instructor on a case by case basis.
- **Cell phones:** Use of music devices and cell phones are prohibited during all Nursing classes at Chaminade, unless specifically permitted by your instructor. Use of cell phones and music devices in the laboratory, simulation, or clinical settings are a safety and privacy issue. In addition, use of cell phones and music devices in any class are discourteous and may lead to suspicion of academic misconduct. Students who cannot comply with this rule will be asked to leave class and may receive unsatisfactory performance for that day. Please refer any questions to the Dean for Nursing.

ADA Accommodations:

Chaminade University of Honolulu is committed to providing reasonable accommodations for all persons with disabilities. The syllabus is available in alternate formats upon request. Students with special needs who meet criteria for the Americans with Disabilities Act (ADA) provisions must provide written documentation of the need for accommodations from the CUH Counseling Center (Dr. June Yasuhara; phone 735-4845) by the end of week three of the class, in order for the instructor to plan accordingly. Failure to provide written documentation will prevent your instructor from making the necessary accommodations. Please refer any questions to the Dean of Students and review the procedures at <http://www.chaminade.edu/student-affairs/counseling-services>

Title IX Compliance:

Chaminade University of Honolulu recognizes the inherent dignity of all individuals and promotes respect for all people. Sexual misconduct, physical and/or psychological abuse will NOT be tolerated at CUH. If you have been the victim of sexual misconduct, physical and/or psychological abuse, we encourage you to report this matter promptly. As a faculty member, I am interested in promoting a safe and healthy environment, and should I learn of any sexual misconduct, physical and/or psychological abuse, I must report the matter to the Title IX Coordinator.

Should you want to speak to a confidential source you may contact the following:
Chaminade Counseling Center at 808 735-4845. Any priest serving as a sacramental confessor or any ordained religious leader serving in the sacred confidence role.

DIDACTIC SECTION OF NUR 306 INFORMATION**Additional Course Information**

This course incorporates active learning which requires students to be engaged and actively participating in the learning process. A variety of technologies will be used such as PowerPoint, iClickers; concept maps/decision trees, interactive quizzes, interactive case studies, videos, and simulation. Laptops or iPads will be used a great deal in this course.

It is expected that students read all of the content in Maternal & Pediatric Nursing text and review the handouts for that class prior to the class session. In order to prepare students for the ATI proctored examinations, readings that correspond with the week's concepts are also assigned. On exams, test questions will be taken from both ATI texts, the course textbook, and supplementary materials.

Weekly Course & Exam Schedule- see separate schedule and weekly modules on CANVAS

Prep-U Assignments:

What is Prep-U? This software offers students an adaptive learning process, increasing the difficulty level of questioning based on the student's previous performance. The students take the on-line Prep-U assessments on assigned chapters prior to arriving to lecture. Taking the assigned Prep-U assessments ensures the material has been reviewed and applied, allowing more constructive dialog and critical thinking scenarios in the classroom setting. Another advantage to the use of this software is the practice of multiple-choice and multiple response questions similar to those presented on the NCLEX. An access is purchased with your class textbook. The instructor will provide a class code on CANVAS specific to the course that you can sign in to.

vSim Assignments: (should be same classroom code as Prep U)

There are a total of 5 characters that will be assigned to the student at various times during the semester. vSim assignments are scheduled prior to class or on simulation day. The student must do the following by the due date to receive credit for each vSim assignment:

- Pre quiz
- vSim run – 90% minimum score
- Post quiz – 90%

All exam grades will be available in the CANVAS gradebook within 48-72 hours. Students who wish to review their exams with faculty during the faculty's offices hours will need to have this review completed **within two weeks from the date of the exam**. After the two week period (unless special arrangements have been made between instructor and student) the exams will no longer be available for review.

CLINICAL SECTION OF NUR 306 INFORMATION

Additional Course Information

All clinical forms are found on CANVAS. Students are responsible for printing any required forms on that site. Students are expected to keep email/telephone contact information updated in the School of Nursing Office as this is the main form of contact that the clinical faculty will use in order to contact students. Failure to keep this information updated may result in the student not receiving pertinent clinical information. Each email that is sent directly to the instructor must have 'NUR 306 clinical, your last name, and a topic' in the subject line. In addition, students must use their **student.chaminade.edu** email account when emailing the instructor. Failure to do so will result in the student's email not being opened.

Clinical application of theory will take place in a variety of acute care and community health settings.

Clinical Hours: 1 Clinical Credits (45 Clinical Hours)

45 hours in acute/chronic/care. Some hours will be included in community activities.

Simulation integrated into clinical hours.

Clinical Teaching/Learning Strategies:

Strategies may include: reading; videos; Socratic questioning; interactive case studies; demonstrations; practice application of clinical skills; patient care; interaction with instructor, students, and hospital staff; medication maps, simulation experiences; weekly reflective logs; clinical evaluation.

Clinical Details/Requirements

Clinical rotations in the nursing program are foundational to the development of the professional nurse and nursing as a practice. You must dress professionally; wear your unwrinkled uniform, school ID, socks, and wear closed-toe/closed heel shoes (white leather/vinyl). Only the Chaminade University School of Nursing approved uniforms will be permitted. Your image is representative of the Chaminade University Nurse. The Chaminade approved uniforms consist of the navy scrubs with school logo and the navy polo with school logo with black slacks to be worn with dark closed toe/closed heel shoes. Your school picture ID is to be worn at all times unless specified by your clinical instructor. Your clinical instructor will inform you of when your scrubs will be worn and when your polo and black slacks will be worn. Please read information about appropriate use of jewelries, make-up and finger nails specifications in your student handbook.

Clinical facilities have specific requirements each student must meet; some of these are to be completed before the first day of clinical. These requirements can be facility orientation to policies, computer systems, and other forms of paperwork. Please remember that students and faculty of Chaminade are guests in these facilities and we must comply with ALL of the requirements given or the student and/or clinical group will not be allowed to participate in learning experiences at that facility. A failure to meet these requirements may result in having to withdraw from the course since changing clinical placements after the semester has begun is not allowed by the clinical facilities.

See additional details in Student Handbook, Clinical Practicum Course Information, and Chaminade University School of Nursing.

Clinical Attendance and Participation:

Attendance is **mandatory**. If you must miss a clinical session due to illness, you must call your clinical instructor at least one hour prior to clinical start and provide a physician's note in order to receive an opportunity for makeup hours. You also need to email the course leader within 24 hours of the absence. You are expected to be at the clinical site on time without tardiness. Students may **NOT** switch clinical sections as orientation to the clinical site will have occurred. Do not bring valuables and only bring the assigned equipment. Clinical facilities do not provide storage for students' bags. If you bring your lunch please realize that a refrigerator may not be available for storage so plan accordingly. Microwaves are usually available in the cafeterias but it is your responsibility to check on this.

Confidentiality, Unacceptable Practice (unsafe, unethical, or illegal):

Students are expected to maintain patient confidentiality at all times. **No computer printouts, or any form of patient record, are to be removed from the clinical setting.** Patient records are **NOT** to be photocopied, to do so will result in clinical failure. Please read the **HIPAA**

regulations for your agency, sign acknowledgement form as required, and submit to appropriate clinical instructor or Course Leader.

- **A failure to close out completely from a facility computer with patient information is a HIPAA violation and will be treated accordingly. This includes screens that have been minimized. This is a federal law and compliance is mandatory.**
- **A failure to cover patient information on your clipboard or notepad is another example of HIPAA violation.**

Patient identifiers, such as: name, clinical facility, DOB, SS#, home address and telephone number, city/county/region, employer, names of relatives/significant others **must be removed or omitted from all written work.** All written work with patient care information (such as daily patient care plans with vital signs and physical assessment notes) must be shredded at the end of the clinical day. Students are also expected to delete from their computer files all coursework at the end of the semester and return any I.D. and/or parking badges to the respective clinical sites. Students are responsible for any replacement fees attached for lost IDs or parking badges.

CLINICAL EVALUATION FORM

Student: _____
 Semester: _____ Course: NUR 306 Maternal-Newborn Nursing
 Instructor: _____
 Clinical Agency: _____ Unit: _____

 Absences: _____ Tardy: _____

The behaviors listed below under each competency are statements that demonstrate the student's application of theory to practice, decision making ability, skills (psychomotor, communication, interpersonal, relations, etc.), and professional behavior and development during clinical practice. **Each student will take responsibility for her/his own professional growth and on-going development of a personal philosophy of nursing practice; thus, student weekly growth is expected and course expectations will rise accordingly.**

Satisfactory = Objective met consistently and with minimal assistance.

Unsatisfactory= Objective not met or met at an inconsistent level.

	Midterm			Final		
Competency 1 – Demonstrate professional behavior.	S	U	NA	S	U	NA
1. Takes responsibility for own learning by <u>initiating</u> questions with respect to clarification and/or elaboration of preparation for clinical practice.						
2. Discusses own learning needs with faculty and asks for advice on ways to improve planning and implementing nursing care, and for specific experiences to meet identified learning needs.						
3. Recognizes impact of self in provision of nursing care and is committed to self- growth.						
4. Constructively uses extra time during clinical practice.						
5. Articulates an appreciation of the impact of the patient's illness and hospitalization on the family.						
6. Critically analyzes and applies evidence base practice and/or nursing literature findings to clinical practice.						

7. Takes responsibility and accountability in all areas of nursing care and interactions with individuals, children, families, communities, faculty, peers, members of the health care team, and personnel in other disciplines.						
8. Practices within the legal and ethical frameworks of nursing.						
9. Protects patient's/ client's rights under the law (Privacy, autonomy, confidentiality)						
10. Advocates for patient/family and/or community.						
11. Takes responsibility in ensuring professional dress, appearance and behavior						
12. Demonstrates accountability by completing and submitting assignments by the specified deadlines in a professional manner.						

Comments:

	Midterm			Final		
Competency 2 – Gather appropriate patient/family and/or community data.	S	U	NA	S	U	NA
1. Uses appropriate interview techniques in assessment.						
2. Identifies community resources.						
3. Adapts assessment techniques based on client characteristics (e.g. age, culture, development, etc...).						
4. Uses a family-centered approach to gather assessment data on assigned patient and family.						
5. Engages in ongoing assessment (biophysical, psychosocial, developmental, spiritual, and cultural), noting the patient's status and describing any changes from baseline.						
6. Assesses the patient's physiologic response to illness and to the treatment plan.						
7. Assesses the patient's and family's coping strategies in response to the diagnosis, hospitalization and treatment plan and/or community care.						
8. Identifies health related concerns of patient and/or family.						

Comments:

	Midterm			Final		
Competency 3 – Analyze comprehensive data to plan patient/family and/or community care.	S	U	NA	S	U	NA
1. Correctly analyzes data by comparing them to theoretical and scientific norms and identifying deviations.						
2. Uses data to formulate and prioritize appropriate,						

individualized patient problems relevant to nursing.						
3. Demonstrates critical thinking in explaining the relationship between patient problems and their etiology.						
4. Applies theory to state comprehensive goals in objective patient and/or family centered terms that are realistic, measurable behaviors.						

Comments:

	Midterm			Final		
Competency 4 – Provide appropriate, nonjudgmental care to patient/family and/or community.	S	U	NA	S	U	NA
1. Writes nursing orders that are clear, specific, and reflect nursing literature.						
2. Implements nursing interventions designed in response to stated goals, and individualized to the unique characteristics of the patient and family.						
3. Adapts nursing interventions to patient's level of development in order to be effectively implemented.						
4. Determines priorities and organizes care accordingly.						
5. Performs previously learned treatments and procedures skillfully.						
6. Administers medications on time and in a knowledgeable and safe manner.						
7. Demonstrates knowledge of own limitations and asks for assistance appropriately.						
8. Incorporates therapeutic play into nursing care.						
9. Integrates principles of teaching and learning into nursing care.						
10. Demonstrates knowledge and participates in discharge planning, including provision of anticipatory guidance and continuing care arrangements.						
11. Considers family and community when implementing care as needed.						
12. Protects patients from injury, infection, and harm.						
13. Uses available technology in accordance with agency policies and procedure.						
14. Requests assistance as necessary.						
15. Maintains a safe, effective care environment.						

Comments:

	Midterm			Final		
Competency 5 – Evaluate patient/family and/or community care.	S	U	NA	S	U	NA
1. Uses outcome statements to objectively evaluate child's and family's response to nursing care.						
2. Revises plan of care as needed based on alterations in child/family health status.						

Comments:

	Midterm			Final		
Competency 6 – Communicate effectively.	S	U	NA	S	U	NA
1. Reports pertinent information to faculty and appropriate health team members.						
2. Shows sensitivity to sociocultural needs of patient/family and/or community.						
3. Documents patient/family data in a concise and timely manner.						
4. Is an active listener and uses therapeutic communication when interacting (verbally and nonverbally) with patient and/or family.						
5. Collaborates with patient/family in planning and implementing nursing care.						
6. Actively intervenes to support coping strategies of patient and family experiencing stress (including referrals).						
7. Actively interacts with staff in decision making relevant to planning and/or revising nursing care for patient and family.						
8. Accepts and profits from constructive criticism demonstrating openness to new ideas.						
9. Contributes to own and group's learning by actively participating during clinical conferences.						

Comments:

Maternal NB- COURSE LEARNING OUTCOMES

Upon completion of this course the student will:

1. Interpret human responses to maternal-child conditions within a holistic and cultural context
2. Apply the nursing process to the childbearing family experiencing alterations from normal processes
3. Communicate effectively with the interdisciplinary team, patient, and family
4. Evaluate patient status by applying safety rights during administration of pharmacologic agents
5. Integrate normal growth and development stages in the care of families and infants
6. Evaluate the quality of care provided for families and their infants using evidence based resources
7. Apply ethical and legal principles in the care of families in the acute and community setting
8. Apply the principles of health promotion and health maintenance, as applicable, in the care of the childbearing family

CLINICAL EVALUATION TOOL

ALTHOUGH PATTERNS OF BEHAVIOR ARE THE PRIMARY BASIS FOR GRADE DECISIONS, CERTAIN CRITICAL INCIDENTS MAY RESULT IN CLINICAL FAILURE, THUS RESULTING IN FAILURE OF THE COURSE. THESE CRITICAL INCIDENTS INCLUDE BUT NOT LIMITED TO:

1. **ANY UNSATISFACTORY GRADING OF ANY ELEMENT OF A COMPETENCY AT FINAL EVALUATION**
2. **BEHAVIORS OR ACTIONS OF MALICIOUS INTENT**
3. **CONTINUED NEGLIGENCE AFTER INITIAL WARNING**

In addition, the following conduct is critical and the student is expected to demonstrate these each week. Failure to do so may result in failure of the clinical and the course upon discussions with the Clinical Faculty, Course Coordinator and the Dean

1. Reports to clinical site on time, and is professional in dress, appearance, and behavior.
2. Demonstrates accountability for clinical practice by completing and submitting assignments by the specified deadlines.

NOTE: *One Tardiness will require a remediation plan. All unsatisfactory rating midterm will require a remediation plan.*

MIDTERM EVALUATION (utilized as necessary if student is not meeting expectations)

Describe student's strengths:

Describe student's future learning needs:

Student comments:

**Remediation Plan (Course Advising Alert Forma) Instituted as Needed
(and attached with clinical evaluation.**

FINAL EVALUATION

Describe student's strengths:

Describe student's future learning needs:

Student comments:

Please submit copy of student self- evaluation with faculty form

Faculty Signature: _____ Date: _____

Student Signature: _____ Date: _____

NOTE: *Students must complete a self evaluation at midterm and/or final evaluation and handed to their clinical instructor prior to the clinical instructor's evaluation.* Student signature affirms that the student received the evaluation. The original copy of this evaluation will be kept in the nursing office.

Maternal- Newborn Medications Reference

Name	Sub Class	Use in Perinatal
Fentanyl	Opiod, Analgesic	Pain Management
Toradol	NSAID	Pain Management
Astromorph	Morphine, Opiod	Epidural, long pain management
Lidocaine	Local Anesthetic, antiarrhythmia	Pain relief; IV, perineum, epidural
Ropivacaine	Anesthetic	Epidural
Tylenol with codeine (TC3)	Opiod Combo	PO; pain management
Percocet	Opiod Combo	PO; pain management
Ibuprofen	NSAID	PO; pain management
Pitocin	Oxytocic Agent	IV or IM; augment or induce labor; control of postpartum bleeding after delivery
Magnesium Sulfate	Labor suppression, antiarrhythmia	IV; Preeclampsia; raises seizure threshold
Calcium Gluconate	Mineral	Antidote for magnesium toxicity
Morphine	Opiod	IM, IV push, epidural , pain management
Phenergan	Antiemetic	N&V, pain
Reglan	Antiemetic	N&V
Zofran	Antiemetic	N&V
Terbutaline	Tocolytic	Labor suppression
Hemabate	Gynecologic	IM, postpartum hemorrhage
Methergine	Gynecologic	IM, postpartum hemorrhage
Cytotec (Misoprostol)	GI, gynecologic	Cervical ripening; postpartum hemorrhage
Nifedipine	Calcium channel blocker	Labor suppression, hypertension
Hydralazine	Antihypertensive	Hypertension
Labetalol	Beta Blocker	Hypertension
Synthroid (Levothyroxine)	Thyroid	Hypothyroidism
Benadryl IV	Antihistamine	Itching
Celestone (Betamethasone)	Corticosteroid	To induce fetal lung maturity in expectant mothers between 24-34 wks gestation at high risk of PTL
Insulin	Insulin	Diabetes
Ampicillin	Antibiotic	Chorioamnionitis; infection

Gentamicin	Antibiotic	Chorioamnionitis; infections
Vancomycin	Antibiotic	Chorioamnionitis; infection
Clindamycin or cleocin	Antibiotic	Chorioamnionitis; infection, PCN allergy
Penicillin	Antibiotic	GBS prophylaxis
Vitamin K (Aquamephyton)	Phytonadione	Prevention of hemorrhagic disease of newborn
MMR vaccine	Measles/Mumps/Rubella	Immunization
Tdap vaccine	Tetanus/diphtheria/pertussis	Booster given to mother
Hep B vaccine	Immunization	Hep B prophylaxis
HIB vaccine	Immunization	Given to newborn of HEP B positive mother
Erythromycin ophthalmic ointment	Antibiotic	Placed in newborns eyes to prevent infection
TIV vaccine	Vaccine	Flu Shot offered postpartum
Prenatal vitamins	Vitamins	Prenatal care
Folic acid	Vitamin	Prevention of spinal bifida
Docusate sodium	Stool softener	Constipation
Dermaplast	Antibacterial spray	Perineum discomfort
Bicitra	Antacid	Antacid
Lomotil	Anti-diarrheal	Diarrhea
Tucks	Hemorrhoid pads	Hemorrhoids

Oral Presentation Rubric : Research Article Summary**Article Topic:** _____**Clinical Instructor Name:** _____**Student Name:** _____ **Date:** _____

CATEGORY	4	3	2	1
Preparedness	Student is completely prepared and has obviously rehearsed.	Student is adequately prepared but could have used a few more rehearsals.	The student is somewhat prepared, but it is clear that rehearsal was lacking.	Student does not seem at all prepared to present.
Speaks Clearly	Speaks clearly and distinctly all (100-95%) the time, and mispronounces no words.	Speaks clearly and distinctly all (100-95%) the time, but mispronounces one-word.	Speaks clearly and distinctly most (94-85%) of the time. Mispronounces more than two words	Often mumbles or cannot be understood OR mispronounces more than three words
Stays on Topic	Stays on topic all (100%) of the time.	Stays on topic most (99-90%) of the time.	Stays on topic some (89%-75%) of the time.	It was hard to tell what the topic was.
Content	Shows a full understanding of the topic.	Shows a good understanding of the topic.	Shows a good understanding of parts of the topic.	Does not seem to understand the topic very well.
Posture and Eye Contact	Sits up straight, looks relaxed and confident. Establishes eye contact with everyone in the room during the presentation.	Sits up straight and establishes eye contact with everyone in the room during the presentation.	Sometimes sits up straight and establishes eye contact.	Slouches and/or does not look at people during the presentation.

Total possible points: 20 –(14/20 minimum score for Satisfactory rating).

Student Score:
____/20

To be completed by clinical instructor and included with student clinical performance evaluation

Chaminade University of Honolulu

Reflective Log

Student name _____ Clinical Date _____ Log# _____

Clinical setting and Rotation _____

Staff member(s) _____

These questions and weekly answers must be placed in this Word document each week and submitted to the clinical instructor and course coordinator in the appropriate dropbox in eCollege no later than two days after your clinical experience. Please remove italic guidelines under each question prior to submission. Students should maintain copies of reflective journals in ePortfolio until after graduation.

1. How did I meet the Course Learning Outcomes for this week? (Refer to syllabus CLO's 1-8)

Use specific examples as possible.

You should refer to and choose from the 8 course learning outcomes with specific objectives outlined in the clinical evaluation tool. You should meet all clinical competencies and objectives by the end of the clinical course. You will likely use them more than once and achieve more than one per clinical day.

i.e. CLO #6 ("Today I was able to present in post conference a really good Evidence based article pertaining to the use of alcohol on the umbilical cord and whether it truly is necessary in preventing infection. I was very nervous at first speaking to everyone, but once I started to relax I realized that I learned a lot from reading this article, and was able to answer questions my peers and instructors had about the article).

2. What are my thoughts and feelings about the day, the type of care provided, and the clinical experiences this week? What made me feel like "this is what I really want to do" and what made you feel disconnected or uncomfortable.

I felt good about...

I discovered ... about myself...

I discovered ... about nursing...

I was uncomfortable with...

I wish I could have

Discuss the attitudes and approaches of the staff AND the physician to the patient and her family. What rituals of care, unsupported by research, did you observe? What suggestions do you have?

3. What are my strengths and areas of improvement for this particular day? What proposed changes will I make for the next clinical day?

Use this space to reflect on your learning process. For example, but not limited to:

What you would do differently next time

How you feel now as you reflect back on any experience or incident

4. How can I enhance my learning in future clinical experiences?

5. How can my instructor facilitate my future clinical days to enhance my learning? Be specific as you can on your suggestions.

Did the faculty member help you process differences in practice between what is taught in class and what you observed in the hospital? What could the faculty do to improve this learning experience? How can the faculty best help you meet your learning needs, goals and objectives? What suggestions do you have? Discuss your experience with the staff you were working with today.

PLEASE NOTE:

While every attempt has been made to prepare this syllabus and class schedule in final form, it may be necessary for the course coordinator to make changes as may be deemed essential to meet the learning outcomes of the course. Students will be notified in writing via Chaminade email of any changes. It is recommended that you check email and course site frequently for announcements. All students will be held responsible to read, understand, and clarify the content within this document.
