

MA 305 - Math for Elementary Teachers II Spring 2018 / Brogan 101 3 credits Monday, Wednesday, Friday 1:30 – 2:20pm

Instructor:Dr. Travis MukinaEmail:travis.mukina@chaminade.eduPhone:808.440.4250

**Office Hours:** Brogan 132 *Monday* 12:00 – 1:30pm *Tuesday* 10:30 – 11:30am By Appointment

## Learning Materials:

- **Textbook**: Beckmann, Sybilla (2014). Mathematics for Elementary Teachers with Activities. 4th ed. Pearson. ISBN-10: 0321825721
- MyMathLab Online Homework: Purchase access code through bookstore or directly on www.pearson.com/mylab

• Course ID: mukina22063

- **3-Ring Binder**: Throughout the course, you should keep a collection of the course material. This is comprised of chapter notes and problem-solving sets. Notes and problem-solving sets will be posted on Canvas under weekly "Modules" and should be kept in an organized binder.
- **GroupMe App**: Reminders, updates, and changes about the course will be posted here. It may also be used to ask questions to classmates or the professor. Any personal questions or comments, please DM me or email me.

# **Course Catalog Description:**

This course provides prospective elementary education majors with a deeper and more comprehensive understanding of fundamental concepts underlying the mathematics taught in grades K through 8. Guided by NCTM Principles and Standards, this course focuses on the big ideas of geometry, measurement, data analysis, and probability and statistics. This course fulfills an upper division elective requirement in mathematics for Elementary Education majors. *Prerequisites*: MA 105

## **Mission Statement:**

The mission of the education division is to foster the education of teachers and leaders in education through programs based in the liberal arts tradition, Catholic Marianist's values, current research, and best practices.

## **Marianist Values:**

- 1. Educate for Formation in Faith
- 2. Provide an Integral Quality Education
- 3. Educate in Family Spirit
- 4. Educate for Service, Justice, and Peace
- 5. Educate for Adaptation and Change

## WASC Core Competencies:

- 1. Written Communication
- 2. Oral Communication
- 3. Quantitative reasoning
- 4. Critical Thinking
- 5. Information Literacy

# Program Learning Outcomes (PLOs):

1 *Content Knowledge* (Knowledge of subject matter)

2	Developmentally Appropriate Practice (Knowledge of how students develop and learn, and engagement of students in developmentally appropriate experiences that support learning)
3	Pedagogical Content Knowledge (Knowledge of how to teach subject matter to students and application of a variety of instructional strategies that are rigorous, differentiated, focused on the active involvement of the learner)
4	<i>Educational Technology</i> (Knowledge of and application of appropriate technology for student learning)
5	Assessment for Learning (Knowledge of and use of appropriate assessment strategies that enhance the knowledge of learners and their responsibility for their own learning)
6	<i>Diversity</i> (Skills for adapting learning activities for individual differences and the needs of diverse learners and for maintaining safe positive, caring, and inclusive learning environments)
7	<i>Focus on Student Learning</i> (Skills in the planning and design of meaningful learning activities that support and have positive impact on student learning based upon knowledge of subject matter, students, the community, curriculum standards, and integration of appropriate technology)
8	<i>Professional &amp; Ethical Dispositions and Communication</i> (Professional dispositions, professionalism in teaching, and ethical standards of conduct consistent with Marianist values, and positive and constructive relationships with parents, the school community and professional colleagues).

#### Course Learning Outcomes (CLOs):

1	Know, understand, and use the major concepts and procedures that define algebra, geometry, measurement, and data analysis and probability.
2	Engage in problem-solving, reasoning and proof, communications, connections, and representation.
3	Demonstrate and appreciation for mathematics as a body of knowledge that is interesting and useful.
4	Use a variety of manipulatives, calculators, computer programs, and other appropriate technology to investigate and explain mathematics.

#### Assessment:

Dates noted are tentative. Read the textbook sections BEFORE class as indicated on the tentative schedule at the end of this syllabus. Always be prepared to contribute to discussion, explain your thinking, and analyze the thinking of others in class. The assignments described below are each designed to contribute in a different and significant way to your knowledge and experience relative to diagnosis and remediation of mathematics and to teaching upper-elementary mathematics. It will be your responsibility to turn in all assignments on time. Late assignments will <u>not</u> be accepted. Submissions may vary from MyMathLab to turning hard copies in during class.

## 1. Attendance / Professionalism / Class Participation – 10% of Final Grade

Due: Ongoing evaluation by instructor throughout the semester

You are now well into your studies for your chosen career in teacher education. Important in the concept of professionalism is your concern with becoming the best teacher you can become. Your attendance, promptness, attention, cooperation, and active participation are necessary to facilitate this process. If you are unable to attend class, it is your responsibility to notify your instructor and to find out what you missed that day during class. Attitude and responsibility are also important aspects of professionalism. It is your instructor's responsibility to challenge you to grow as a professional and to help you develop a professional disposition. However, you also have a responsibility to be in class every day, to be responsive, and participate fully in all class activities. It is important that you listen to

the ideas of others and respect their thoughts. Your grade will be determined based a holistic evaluation of your professionalism and participation in the following ways:

- Attendance & Professionalism
- Active Participation in Small Group Tasks
- Active Participation in Whole Class Discussions

#### 2. MyMathLab Online Homework – 20% of Final Grade

### Due: Throughout the semester

#### 10 points per section

Homework will be assigned after each class online through the MyMathLab website. All homework assignments for each section are due by *midnight* of the next day of class. Extensions will not be granted unless extreme circumstances take place. Some days, there will be time at the beginning of class to ask homework questions before they are due that night.

# 3. Problem-Solving Sets – 10% of Final Grade

Due: After the completion of each chapter 20 points per set

Each chapter, you will be required to complete questions from that chapter's lessons. These guestions will require detailed explanation of thought processes and mathematical drawings to show your ideas. The sets will be collected after the completion of each chapter. Please understand that simply "getting the problem correct" is not enough to earn full-credit for the question. An organized, hand-written, thoughtful explanation of your solution is usually required.

# 4. Exams – 60% of Final Grade (20% Each)

Exam 1: Februarv 9<sup>th</sup>

Exam 2: March 23<sup>rd</sup>

Exam 3: May 4<sup>th</sup>

# 100 points each

All three exams will focus on content demonstrated in the homework along with problem-solving discussions that occur in class in your problem-solving sets. There is no "cumulative" final exam. Each exam will cover specific content from previous weeks.

Assignments	Percentage of Final Grade
Attendance / Professionalism / Participation	10%
MyMathLab Online Homework	20%
Problem-Solving Sets	10%
Exam 1	20%
Exam 2	20%
Exam 3	20%

Grading Scale	
90 – 100 %	А
80 – 89 %	В
70 – 79 %	С
60 – 69 %	D
0 – 59 %	F

## **Course Attendance Policy:**

As stated in the Chaminade University Catalog, students are expected to attend all classes for courses in which they are registered. Students must follow the attendance policy as stipulated in the syllabus of Education Division courses. Penalties for not meeting the attendance requirements may result in lowering of the grade, withdrawal from the course, or failing the course.

## 1. Excused Absences.

1.1. Since it is expected that students will participate in all class sessions, excused absences are only granted in exceptional situations where evidence is provided by the student to the instructor. Examples would include illness (with verification by a doctor) or the death of a close family member. Students should notify their instructors when a situation prevents them from attending class and make arrangements to complete missed assignments. *While notification of the instructor by a student that he/she will be absent is courteous, it does not necessarily mean the absence will be excused.* 

1.2. In cases where excused absences constitute a significant portion of a course's meetings (e.g., more than 20% of on-ground course meetings, or a significant portion of online or hybrid courses), the instructor should refer the case to the Dean with a recommendation on how the case should be handled (e.g., withdrawal or incomplete).

**2. Unexcused Absences.** Chaminade University policy states that in cases where unexcused absences are equivalent to more than a week of classes the instructor has the option of lowering the grade. In the Education Division, we have added detailed guidelines to cover different types of courses and class schedules:

*2.1.* On-Ground courses: Missing more than 2 weeks of class (6 classes) will result in an automatic lowering of one letter grade after final grade is calculated.

2.2. Online courses and online portion of hybrid courses: The instructor will specify and enforce expectations for online participation and receipt of assignments appropriate to the design of the course. For online/hybrid courses failure to log in for one week is equivalent to an absence in a traditional on-ground course. Two weeks of not logging in constitutes grounds for removal of the student from the course.

## 3. Additional Notes.

3.1. If a student does not logon to an online or hybrid course for the first two weeks, the instructor should notify the Dean and the student will be withdrawn from the course.3.2. Any student who stops attending an on-ground course or stops participating in an online course without officially withdrawing may receive a failing grade.

## **University Policies**

**Academic Honesty Statement:** Violations of the Honor Code are serious. They harm other students, your professor, and the integrity of the University. Alleged violations will be referred to the Office of Judicial Affairs. If found guilty of plagiarism, a student might receive a range of penalties, including failure of an assignment, failure of an assignment and withholding of the final course grade until a paper is turned in on the topic of plagiarism, failure of the course, or suspension from the University.

Violations of Academic Integrity: Violations of the principle include, but are not limited to:

- Cheating: Intentionally using or attempting to use unauthorized materials, information, notes, study aids, or other devices in any academic exercise.
- Fabrication and Falsification: Intentional and unauthorized alteration or invention of any information or citation in an academic exercise. Falsification is a matter of inventing or counterfeiting information for use in any academic exercise.
- Multiple Submissions: The submission of substantial portions of the same academic work for credit (including oral reports) more than once without authorization.
- Plagiarism: Intentionally or knowingly presenting the work of another as one's own (i.e., without proper acknowledgment of the source).
- Abuse of Academic Materials: Intentionally or knowingly destroying, stealing, or making inaccessible library or other academic resource materials.

Complicity in Academic Dishonesty: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.

Plagiarism includes, but is not limited to:

- Copying or borrowing liberally from someone else's work without his/her knowledge or permission; or with his/her knowledge or permission and turning it in as your own work.
- Copying of someone else's exam or paper.
- Allowing someone to turn in your work as his or her own.
- Not providing adequate references for cited work.
- Copying and pasting large quotes or passages without properly citing them.

**Title IX Compliance:** Chaminade University of Honolulu recognizes the inherent dignity of all individuals and promotes respect for all people. Sexual misconduct, physical and/or psychological abuse will NOT be tolerated at CUH. If you have been the victim of sexual misconduct, physical and/or psychological abuse, we encourage you to report this matter promptly. As a faculty member, I am interested in promoting a safe and healthy environment, and should I learn of any sexual misconduct, physical and/or psychological abuse, I must report the matter to the Title IX Coordinator. Should you want to speak to a confidential source you may contact the following:

- Chaminade Counseling Center: 808-735-4845
- Any priest serving as a sacramental confessor or any ordained religious leader serving in the sacred confidence role.

## **Disability Access:**

The University is committed to providing reasonable accommodations for all persons with disabilities. This syllabus is available in alternate formats upon request. Students who need accommodations must be registered with Student Disability Services. Students with special needs who meet criteria for the Americans with Disabilities Act (ADA) provisions must provide written documentation of the need for accommodations from the Counseling Center by the end of week three of the class, in order for the instructor to plan accordingly. Failure to provide written documentation will prevent your instructor from making the necessary accommodates. Please refer any questions to the Dean of Students.

Tentative Course Outline (Spring 2018) \*The professor reserves the right to make adjustments to this outline to better accommodate student needs.

Week # / Day # Date	Class Description		Assignments Due
<b>Week 1 / Day 1</b> January 17 <sup>th</sup>	Introduction to Course & Syllabus	•	Be Added in GroupMe
<b>Week 1 / Day 2</b> January 19 <sup>th</sup>	<ul> <li>Chapter 9: Algebra</li> <li>Pages 360 – 364</li> <li>Section 9.1: Numerical Expressions</li> </ul>
