

HAWAI'I SCHOOL OF PROFESSIONAL PSYCHOLOGY
AT CHAMINADE UNIVERSITY OF HONOLULU

Course Syllabus

[Chaminade University Honolulu](http://www.chaminade.edu)

3140 Waialae Avenue - Honolulu, HI 96816

www.chaminade.edu

Course Number: PP7045-01-7

Course Title: Psychopathology

Department Name: Hawaii School of Professional Psychology

College/School/Division Name: Department of Education and Behavioral Sciences

Term: Fall 2020

Course Credits: 3

Class Meeting Days: Mondays

Class Meeting Hours: 2:30-5:30pm

Class Location: TBA

Instructor Name: Rick Trammel, Ph.D.

Email: Ricky.Trammel@chaminade.edu

Phone: 808.739-4613

Cell: 808.295-6379

Office Location: Brogan Hall 116

Office Hours: Monday 10am-1pm; Tuesday 1pm-4pm; Thursday 10am-12pm

University Catalogue Course Description:

The concentration of the course is on the observation, description, etiology, assessment and understanding of the mild to severe range of symptomatology of personality and behavioral disorders of adulthood and childhood. Developmental and dynamic elements are considered in the context of diagnostic and therapeutic concerns. A methodology for organizing clinical data is presented. Also, the assessment, etiology, description, understanding and treatment of the more severe psychological disorders are emphasized. Included in the course are schizophrenia spectrum, anxiety, depressive, bipolar, obsessive-compulsive, substance use, neurodevelopmental and personality disorders among others. Emphasis is on recognition of the continuum of basic psychological processes in normal and severely disturbed experiences.

Additional Course Information:

This course explores the biological, sociological, and historical bases of psychology; the current social and political context of psychopathology and abnormal psychology; and the issues and challenges regarding psychopathology in contemporary society. The application of these topics to the practice of professional psychology and psychotherapy with individuals and couples is a

primary focus of this course and will be discussed particularly in regard to assessment, therapeutic planning, intervention, and outcome measurement. Maintaining clinical objectivity within the context of personal value systems will be addressed.

Instructional Contact and Credit Hours

Students can expect 15 hours of instructional engagement for every 1 semester credit hour of a course. Instructional engagement activities include lectures, presentations, discussions, group-work, and other activities that would normally occur during class time. Instructional engagement activities may occur in a face-to-face meeting, or in the classroom.

In addition to instructional engagement, students can expect to complete 30 hours of outside work for every 1 semester credit hour of a course. Outside work includes preparing for and completing readings and assignments. Such outside work includes, but is not limited to, all research associated with completing assignments, work with others to complete a group project, participation in tutorials, labs, simulations and other electronic activities that are not a part of the instructional engagement, as well as any activities related to preparation for instructional engagement.

At least an equivalent amount of work specified in the paragraph above shall be applied for other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

Marianist Values

This class represents one component of your education at Chaminade University of Honolulu. An education in the Marianist Tradition is marked by five principles and you should take every opportunity possible to reflect upon the role of these characteristics in your education and development:

1. Education for formation in faith
2. Provide an integral, quality education
3. Educate in family spirit
4. Educate for service, justice and peace
5. Educate for adaptation and change

Native Hawaiian Values

Education is an integral value in both Marianist and Native Hawaiian culture. Both recognize the transformative effect of a well-rounded, value-centered education on society, particularly in seeking justice for the marginalized, the forgotten, and the oppressed, always with an eye toward God (Ke Akua). This is reflected in the 'Olelo No'eau (Hawaiian proverbs) and Marianist core beliefs:

1. Educate for Formation in Faith (Mana) E ola au i ke akua ('Olelo No'eau 364) May I live by God

2. Provide an Integral, Quality Education (Na'auao) Lawe i ka ma'alea a kū'ono'ono ('Ōlelo No'eau 1957) Acquire skill and make it deep
3. Educate in Family Spirit ('Ohana) 'Ike aku, 'ike mai, kōkua aku kōkua mai; pela iho la ka nohana 'ohana ('Ōlelo No'eau 1200) Recognize others, be recognized, help others, be helped; such is a family relationship
4. Educate for Service, Justice and Peace (Aloha) Ka lama kū o ka no'eau ('Ōlelo No'eau 1430) Education is the standing torch of wisdom
5. Educate for Adaptation and Change (Aina) 'A'ohe pau ka 'ike i ka hālau ho'okahi ('Ōlelo No'eau 203) All knowledge is not taught in the same school

HSPPP Aims and Competencies

The Hawai'i School of Professional Psychology at Chaminade University of Honolulu's clinical psychology doctoral program's aim is to educate and train students employing a practitioner-scholar model so that they will be able to function effectively as clinical psychologists. To ensure that students are adequately prepared, the curriculum is designed to provide for the meaningful integration of psychological science, theory, and clinical practice. The clinical psychology program at the Hawai'i School of Professional Psychology is designed to emphasize the development of knowledge, skills, and attitudes essential in the training of health service psychologists who are committed to the ethical provision of quality, evidence based services to diverse populations and who are able to apply multiple theoretical perspectives to clinical issues.

The Hawai'i School of Professional Psychology at Chaminade University of Honolulu's clinical psychology doctoral program subscribes to the APA Standards of Accreditation. As such, students are expected to establish an identity in and orientation to health service psychology by acquiring the necessary discipline-specific knowledge and profession-wide competencies as follows:

1. Students will demonstrate knowledge of ethical and legal standards relevant to the practice of clinical psychology, including professional ethics that guide professional behavior.
2. Students will develop both communication and interpersonal skills, to include utilization of clear, informative, well-integrated communication, critical thinking, and effective interpersonal skills in professional interactions.
3. Students will demonstrate knowledge of professional values and attitudes as well as self-reflective practice and openness to supervision and feedback.
4. Students will demonstrate competency in individual and cultural diversity, including knowledge of theoretical models and diversity research that serve to guide the application of diversity competence.
5. Students will have knowledge of the history and systems of psychology as well as the basic areas in scientific psychology, including affective, biological, cognitive, developmental, psychopharmacological, and sociocultural aspects of behavior.
6. Students will demonstrate competency in the science of psychology, including knowledge and application of psychometrics, statistical analyses, and quantitative and qualitative research methods.

7. Students will demonstrate competency in psychological assessment, including the ability to administer, interpret, and integrate psychological test results and apply knowledge of strengths and psychopathology to the assessment process.
8. Students will demonstrate competency in clinical intervention, including case formulation, theoretical conceptualization, developing and applying evidence based treatment plans, and evaluating treatment effectiveness in work with clients.
9. Students will evidence knowledge of consultation models and practices, and demonstrate interprofessional and interdisciplinary skills in consultative services.
10. Students will evidence knowledge of supervision models and practices.
11. Students will understand and apply the Marianist values in their professional practice. The application of Marianist values includes applying and adapting social awareness for community service, justice, and peace.

Course Learning Outcomes

- Students will demonstrate an understanding of the foundational information of psychopathology, abnormal psychology and the DSM 5. (Competency 5,6,8)
- Be able to articulate, both orally and in writing, a comprehensive understanding of the historical and current array of social norms associated with psychopathology as it pertains to the DSM 5. (Competency 5,6)
- Demonstrate both orally and in writing a comprehensive understanding of assessment and diagnostic criteria from the DSM 5. (Competency 2,6,7,8)
- Demonstrate their knowledge of and competencies in addressing the needs values and experiences of people from diverse, underserved and marginalized populations as they relate to the understanding of psychopathology. (Competency 4,11)
- Demonstrate in support of their life-long learning, the ability to critique, draw conclusions from, and apply the existing and evolving body of knowledge and methods in the practice and science of the study of psychopathology. (Competency 5)
- Demonstrate the ability to apply knowledge of social and personal psychological issues related to psychopathology as it applies to clinical practice. (Competency 2)
- Assess and identify presenting issues related to psychopathology and formulate an appropriate clinical response. (Competency 7,8)
- Demonstrate their understanding and the correct application of the APA Code of Ethics as it applies to themselves and to other professionals during all interaction with students, staff and faculty, and in the process of learning psychopathology by: restating, describing and explaining that information, and displaying those behaviors in class discussions, presentations, examinations, homework and scholarly paper. (Competency 1)

Course Requirements/Methods of Evaluation

- 1. Criteria for Class Participation/Attendance:** 15 points. Class time will be spent in lectures, presentations, roles plays and exams, participation and preparation for all in class activities is required.
- 2. Midterm Exam:** 100 points. The midterm will be in class multiple choice, true/false, fill in the blank and will cover the material from the first half of the course from both texts.
- 3. Final Exam:** 100 points. The final exam will follow the format of the midterm exam and will include material from the readings from the second half of the course.
- 4. Book Review Paper:** 20 points: each student will select a biography or autobiography of an individual dealing with a mental disorder and write a 5-6 page book review. Provide an appropriate DSM 5 diagnosis of the main character or characters. In addition, include a minimum of 5 references which can include the DSM 5, the Butcher et al. text and other relevant research. The paper should be APA Style and include a cover page and 5-6 pages of text with a reference page. The book may be, for example, a biography or autobiography of a child, adolescent or adult who has or had struggled with a psychological disorder or mental illness. Please have your book selection approved by the instructor. The paper should be a critical

analysis of the book, the person(s), and his or her issues that would pertain to our course content.

Note: All papers should be submitted electronically to the instructor on the day it is due. Late papers may have points deducted at the discretion of the instructor. In addition, on the day the paper is due, each student will give a brief oral presentation of his or her book selection.

5. **Journal Article Presentation:** 20 points: each student will research and present a current research journal article on the topic of the class discussion/lecture of that day. The student will present the major points of the article and how it applies to the DSM 5 and psychopathology. Presentation should consist of as many powerpoint slides as necessary to summarize the article along with any appropriate videos from the internet to illustrate the topic/disorder being presented. It is recommended that the powerpoints be copied for each member of the class and the instructor. Presentations length is from 20-30 minutes or however much time you deem necessary to lead the class in a discussion of the article.
6. **Film/Movie Presentation:** 10 points: each student will present an oral overview of a fictional film or documentary on a DSM 5 diagnosis of their choice.

**Grading:
Method**

Participation/Attendance	15
Midterm	100
Final exam	100
Book Review	20
Film Review	10
<u>Research Presentation</u>	<u>20</u>
	265 total

Final Grades will be calculated based on a percentage of points.

Grading Scale

Grade point equivalents (and grading scale values) are presented below. Final scores > .5 will be rounded up.

A = 4.00 (93-100)	A- = 3.67 (90-92)	
B+ = 3.33 (88-89)	B = 3.00 (83-87)	B- = 2.67 (80-82)
C = 2.00 (70-79); Failed - No credit given		F = 0.00 (\geq 69); Failed - No credit given

Course Policies

Instructor and Student Communication: Questions for this course can be emailed to the instructor. Online, in-person, and phone conferences can be arranged. Response time is up to 2 days.

Cell phones, tablets, and laptops: Out of consideration for your classmates, please set your cell

phone to silent mode during class. Students are encouraged to bring laptops or tablets to class as the instructor will assign online activities and readings that will require the use of a laptop or tablet. Laptops and tablets should not be misused, such as checking distracting websites. Use your best judgment and respect your classmates and instructor.

Disability Access: If you need individual accommodations to meet course outcomes because of a documented disability, please speak with me to discuss your needs as soon as possible so that we can ensure your full participation in class and fair assessment of your work. Students with special needs who meet criteria for the Americans with Disabilities Act (ADA) provisions must provide written documentation of the need for accommodations from the Counseling Center by the end of week three of the class, in order for instructors to plan accordingly. If a student would like to determine if they meet the criteria for accommodations, they should contact the Kōkua 'Ike Coordinator at (808) 739-8305 for further information (ada@chaminade.edu).

Failure to provide written documentation through the Counseling Center will prevent your instructor from making the necessary accommodations, instructors cannot provide accommodations unless they have been prescribed by the Counseling Center. Once you have received an official notice of accommodations from the Counseling Center, it is also very important to discuss these accommodations directly with your instructor so that they can better support your needs. If you have specific questions regarding your individualized accommodations you may speak directly with your instructor and/or you may contact the Counseling Center.

Title IX Compliance: Chaminade University of Honolulu recognizes the inherent dignity of all individuals and promotes respect for all people. Sexual misconduct, physical and/or psychological abuse will NOT be tolerated at CUH. If you have been the victim of sexual misconduct, physical and/or psychological abuse, you are encouraged to report this matter promptly. Faculty members promote safe and healthy environments, and any sexual, physical, and/or psychological misconduct or abuse will be reported to the Title IX Coordinator. If you or someone you know has been harassed or assaulted, you can find the appropriate resources by visiting Campus Ministry, the Dean of Students Office, the Counseling Center, or the Office for Compliance and Personnel Services.

Attendance Policy: Students are expected to attend regularly all courses for which they are registered. Student should notify their instructors when illness or other extenuating circumstances prevents them from attending class, and they should make arrangements to obtain missed information and complete missed assignments. Notification may be done by emailing the instructor's Chaminade email address, calling the instructor's campus extension, or by leaving a message with the instructor's division office. It is the instructor's prerogative to modify deadlines of course requirements accordingly. Any student who stops attending a course without officially withdrawing may receive a failing grade.

Students may be automatically withdrawn from the class or receive a failing grade if there are three or more absences in a 16-week term or two absences in a row in a 16-week term. With

the condensed nature of the 8-week terms, missing class one day (e.g., 6-hours of class) would be equivalent to two absences in a row in a 16-week term.

Students with disabilities who have obtained accommodations from the Chaminade University of Honolulu ADA Coordinator may be considered for an exception when the accommodation does not materially alter the attainment of the learning outcomes. Federal regulations require continued attendance for continuing payment of financial aid. When illness or personal reasons necessitate continued absence, the student should communicate first with the instructor to review options. Anyone who stops attending a course without official withdrawal may receive a failing grade or be withdrawn by the instructor at the instructor's discretion.

Academic Conduct Policy: Any community must have a set of rules and standards of conduct by which it operates. At Chaminade, these standards are outlined so as to reflect both the Catholic, Marianist values of the institution and to honor and respect students as responsible adults. All alleged violations of the community standards are handled through an established student conduct process, outlined in the Student Handbook and HSPP Program Catalog, and operated within the guidelines set to honor both students' rights and campus values.

Students should conduct themselves in a manner that reflects the ideals of the University. This includes knowing and respecting the intent of rules, regulations, and/or policies presented in the Student Handbook and Program Catalog, and realizing that students are subject to the University's jurisdiction from the time of their admission until their enrollment has been formally terminated. Please refer to the Student Handbook and HSPP Program Catalog for more details. A copy of the Student Handbook is available on the Chaminade website (<https://studentaffairs.chaminade.edu/>).

Unless otherwise instructed, all course submissions should follow the formatting of the *Publication Manual of the American Psychological Association, 7th Edition* format. The faculty at the Hawai'i School of Professional Psychology at Chaminade University of Honolulu is dedicated to providing a learning environment that supports scholarly and ethical writing, free from academic dishonesty and plagiarism. This includes the proper and appropriate referencing of all sources. You may be asked to submit your course assignments through an online authenticity resource (e.g., Turnitin), which helps students and instructors detect potential cases of academic dishonesty.

Technology: A laptop with the following technology may be required in order to complete courses in the Clinical Psychology program: at least Windows 10 (for PCs), at least Mac OS X 10.5.8 (for Macs); a current antivirus program; the current Microsoft Office (PowerPoint and Word) and Adobe Acrobat; a standard web browser; and an internet or broadband connection with speed and connectivity to support internet searches and video conferencing.

Class Schedule

<i>Date</i>	<i>Topics and Assignments</i>
August 24 Class 1	Orientation to Course Introductions/Overview of Course Film: Madness Butcher et al. Chapter 1 Abnormal Psychology: An Overview Introduction to the <i>DSM 5</i> Reading (for following week): Butcher et al. Ch. 2-3; DSM 5 xiii-25
