## **Course Syllabus**

[Chaminade University Honolulu](http://www.chaminade.edu)

3140 Wai'ala'e Avenue - Honolulu, HI 96816

[www.chaminade.edu](http://www.chaminade.edu)

**Course Number:** PP7370, Section A

**Course Title:** Cognitive Assessment

**Department Name:** Hawai'i School of Professional Psychology

**College/School/Division Name:** College of Education and Behavioral Sciences

**Term:** Fall 2019

**Course Credits:** 3.0

**Class Meeting Days:** Mondays

**Class Meeting Hours:** 9:00 – 12:15

**Class Location:** Brogan Education Building, rm.103

**Instructor Name:** Kathryn M. Chun, Ph.D.

**Email:** [kathryn.chun@chaminade.edu](mailto:kathryn.chun@chaminade.edu)

**Phone:** 808.739.7425

**Office Location:** Behavioral Sciences Building, rm. 103

**Office Hours:** Monday 2:30 – 4:00, Tuesday 10:00-11:30, Wednesday 1:00 – 4:00; see door for updates

### **University Course Catalog Description**

This course focuses on effective and competent cognitive assessment mastery, including being able to administer, score, and interpret cognitive tests. Learning the history of cognitive assessment, cultural, diversity, and ethical considerations, and clinical skills necessary in assessment are critical elements of this training.

### **Course Overview**

This course introduces the student to the major approaches and techniques for intellectual assessment in children and adults. It covers principles of test construction and psychometrics, the history of intellectual assessment, theories of intelligence, and methods of intellectual assessment. Particular attention is given to the administration and interpretation of the Wechsler intelligence tests. Alternative methods of intellectual assessment are also considered. The class includes a laboratory in which skills in administration and interpretation can be practiced.

### **Instructional Contact and Credit Hours**

Students can expect 15 hours of instructional engagement for every 1 semester credit hour of a course.

Instructional engagement activities include lectures, presentations, discussions, group-work, and other activities that would normally occur during class time. Instructional engagement activities may occur in a face-to-face meeting, or in the classroom.

In addition to instructional engagement, students can expect to complete 30 hours of outside work for every 1 semester credit hour of a course. Outside work includes preparing for and completing readings and assignments. Such outside work includes, but is not limited to, all research associated with completing assignments, work with others to complete a group project, participation in tutorials, labs, simulations and other electronic activities that are not a part of the instructional engagement, as well as any activities related to preparation for instructional engagement.

At least an equivalent amount of work specified in the paragraph above shall be applied for other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

### **Marianist Values**

This class represents one component of your education at Chaminade University of Honolulu. An education in the Marianist Tradition is marked by five principles and you should take every opportunity possible to reflect upon the role of these characteristics in your education and development:

- Education for formation in faith
- Provide an integral, quality education
- Educate in family spirit
- Educate for service, justice and peace
- Educate for adaptation and change

### **Native Hawaiian Values**

Education is an integral value in both Marianist and Native Hawaiian culture. Both recognize the transformative effect of a well-rounded, value-centered education on society, particularly in seeking justice for the marginalized, the forgotten, and the oppressed, always with an eye toward God (Ke Akua). This is reflected in the 'Ōlelo No'eau (Hawai'ian proverbs) and Marianist core beliefs:

1. Educate for Formation in Faith (Mana) E ola au i ke akua ('Ōlelo No'eau 364) May I live by God
2. Provide an Integral, Quality Education (Na'auao) Lawe i ka ma'alea a kū'ono'ono ('Ōlelo No'eau 1957) Acquire skill and make it deep
3. Educate in Family Spirit ('Ohana) 'Ike aku, 'ike mai, kōkua aku kōkua mai; pela iho la ka nohana 'ohana ('Ōlelo No'eau 1200) Recognize others, be recognized, help others, be helped; such is a family relationship
4. Educate for Service, Justice and Peace (Aloha) Ka lama kū o ka no'eau ('Ōlelo No'eau 1430) Education is the standing torch of wisdom
5. Educate for Adaptation and Change (Aina) 'A'ohe pau ka 'ike i ka hālau ho'okahi ('Ōlelo No'eau 203) All knowledge is not taught in the same school

### **Program Learning Outcomes: HSPP Aims and Competencies**

The Hawai'i School of Professional Psychology at Chaminade University of Honolulu's clinical psychology doctoral program's aim is to educate and train students employing a practitioner-scholar model so that they will be able to function effectively as clinical psychologists. To ensure that students are adequately prepared, the curriculum is designed to provide for the meaningful integration of psychological science, theory, and clinical practice. The clinical psychology program at the Hawai'i School of Professional Psychology is designed to emphasize the development of knowledge, skills, and attitudes essential in the training of health service psychologists who are committed to the ethical provision of quality, evidence based services to diverse populations and who are able to apply multiple theoretical perspectives to clinical issues.

The Hawai'i School of Professional Psychology at Chaminade University of Honolulu's clinical psychology doctoral program subscribes to the APA Standards of Accreditation. As such, students are expected to establish an identity in and orientation to health service psychology by acquiring the necessary discipline-specific knowledge and profession-wide competencies as follows:

1. Students will demonstrate knowledge of ethical and legal standards relevant to the practice of clinical psychology, including professional ethics that guide professional behavior.
2. Students will develop both communication and interpersonal skills, to include utilization of clear, informative, well-integrated communication, critical thinking, and effective interpersonal skills in professional interactions.
3. Students will demonstrate knowledge of professional values and attitudes as well as self-reflective practice and openness to supervision and feedback.
4. Students will demonstrate competency in individual and cultural diversity, including knowledge of theoretical models and diversity research that serve to guide the application of diversity competence.

5. Students will have knowledge of the history and systems of psychology as well as the basic areas in scientific psychology, including affective, biological, cognitive, developmental, psychopharmacological, and sociocultural aspects of behavior.
6. Students will demonstrate competency in the science of psychology, including knowledge and application of psychometrics, statistical analyses, and quantitative and qualitative research methods.
7. Students will demonstrate competency in psychological assessment, including the ability to administer, interpret, and integrate psychological test results and apply knowledge of strengths and psychopathology to the assessment process.
8. Students will demonstrate competency in clinical intervention, including case formulation, theoretical conceptualization, developing and applying evidence based treatment plans, and evaluating treatment effectiveness in work with clients.
9. Students will evidence knowledge of consultation models and practices, and demonstrate interprofessional and interdisciplinary skills in consultative services.
10. Students will evidence knowledge of supervision models and practices.
11. Students will understand and apply the Marianist values in their professional practice.

### Course Learning Outcomes

- Students will learn the major approaches and techniques for intellectual assessment in children and adults. (Competency 7) [Classes 1-16]
- Students will learn principles of test construction and psychometrics, about the history of intellectual assessment, as well as theories of intelligence. (Competency 6) [Classes 1&3]
- Students will gain an understanding of the theoretical, empirical, and applied foundations of intellectual assessment within the clinical practice of psychology. (Competencies 4 &5) [Classes 1-16]
- Students will learn the application of cognitive assessment in the diagnosis of mental disorders. (Competency 7) [Class 4]
- Students will learn how to administer, score, and interpret the WAIS-IV, WISC-V, and Stanford-Binet Tests of Intelligence, 5th Edition. (Competency 7) [Classes 2, 3, 5, 6, 8,& 9]
- Students will learn how to utilize other cognitive assessments in special contexts and with diverse populations, including the assessment of adaptive functioning in association with cognitive assessments. (Competencies 4, 7, & 11) [Classes 12 & 13]
- Students will learn how to write integrated psychological reports based on cognitive assessment profiles and findings. In so doing, they will refine their skills in psychological report writing. (Competencies 2 & 3) [Classes 4, 6, & 10]
- Students will refine their skills in basic interviewing and behavioral observation as it pertains to cognitive assessment. (Competency 2) [Classes 4, 5, & 12]
- Students will be encouraged to apply critical thinking skills in the interpretation of assessment results and through the case conceptualization process. (Competencies 2, 3, & 7) [Classes 3, 6, 7, 8, & 10]
- Students will refine their awareness of ethical, cultural, and social factors in the uses of psychological testing. (Competency 1, 4, & 11) [Classes 1-16]

## Technology

The following technology may be required in order to complete courses in the Clinical Psychology program:

**Minimum technology requirements.** For PCs: at least an Intel® or AMD x86 processor running at 1.3 GHz or faster; 4GB of RAM, 10 GB hard drive space, 1024x576 display, and a DVD-ROM drive (video hardware acceleration is optimal); one of the following operating systems: Windows 7, Windows Server 2003 with Service Pack 2 and MSXML 6.0 (32-bit Office only), or Windows Server 2008 or later 32 or 64-bit OS. For Macs: at least an Intel processor, Mac OS X 10.5.8 or later; 1 GB of RAM, 10 GB free hard drive space, 1280x800 display, and a DVD-ROM drive.

**Software requirements.** Current Norton Antivirus (Version 10.2 or higher); Microsoft Office Professional (Version 2010 for PC and 2011 for Mac) containing Powerpoint and Word; Acrobat (full version).

**Internet requirements.** 56K or faster Internet or broadband connection; web browser: Microsoft Internet Explorer, Mozilla Firefox, or Google Chrome for PC users, Apple Safari, Mozilla Firefox, or Google Chrome for Mac users.

## Grading

### Course Requirements/Methods of Evaluation:

1. **Attendance:** Regular attendance and active participation in class are required. Students are expected to read all assigned materials ahead and come prepared to discuss them in class. Students should be in class on time. Excessive tardiness (2 or more unexcused) will count as an unexcused absence. Any unexcused absences will minimally result in a reduction of final course grade (e.g., A to A-; B+ to B) and may result in the loss of credit for the course (two or more). The qualification of what is or is not excusable remains at the instructor's sole discretion. It is the responsibility of the student to notify the instructor to request an excused absence prior to the absence or ASAP for illness. The student will need to complete additional make-up work for any excused absences.
2. **Quizzes:** Students will be quizzed regularly on homework reading to assist in comprehension of material and integration of readings in assessment practice.
3. **Laboratory:** Students are required to attend two assessment laboratories. The laboratories will be led by the TA. The Wechsler Adult Intelligences Scales, 4<sup>th</sup> Edition (WAIS-IV) lab will be utilized to measure student's basic competence in standard and reliable test administration. This lab will be scored at a mastery pass/fail. The student will need to pass the lab or will need to repeat the failed lab until he or she passes. The Wechsler Intelligence Scales for Children, 5<sup>th</sup> Edition (WISC-V) lab will focus on scoring assistance with the WISC-V. Attendance and student correction of scoring inaccuracies will determine passing the WISC-V lab. Scheduled dates/times will be made available by the course TA. The lab must be

passed in order to submit the accompanying test report. The student will obtain an incomplete if he or she does not pass both laboratories by the end of the course.

4. Assessment Reports: Students will be required to complete a total of two assessment reports. A grading matrix will be provided to the students.
  - a. Students are required to recruit for and administer the WAIS-IV to an adult.
  - b. Students are required to recruit for and administer the WISC-V to a child.
  - c. Students are required to recruit for and administer the SB5 to an adult or child.
  - d. Informed consent forms must be completed for each volunteer and the WAIS-IV and WISC-V test administrations are to be video recorded.
  - e. Reports will be graded on demonstration of comprehension and mastery of the assigned material, adherence to outlines provided in class, ability to communicate test results, and interpretations that are clear and concisely written with appropriate grammar and spelling. As arithmetic errors, clerical errors, and careless mistakes can have enormous consequences for clients, any errors of this type will adversely affect a student's grade. The instructor will provide more detailed information regarding the required format and content of each report. Assessment reports will be used to measure students' competence in: standard and reliable test administration, scoring, and interpretation of the WAIS-IV, WISC-V, and SB5; students' competence in basic interviewing, behavioral observation, and report writing skills; students' critical thinking and case conceptualization skills; and students' awareness of ethical, cultural, and social factors in the use of psychological tests.
  - f. Reports are to be typed and submitted on time. Reports are due at the beginning of class on the day they are due, submitted by email. Test protocols must also be submitted at the beginning of class on the day they are due, submitted in person. Late reports will be deducted by a grade level (A to A-; B+ to B, etc) for each day the report is late. Non-deducted lateness will be granted at the sole discretion of the instructor.
  - g. If you earn lower than a B- for any report, you will need to obtain a new volunteer, test the volunteer, and write a new report. Your grade will then be the average of the original report and the new report.
  
5. Final Written Exam: The format of the exam will include T/F, Multiple Choice-Best Answer, Short Answer/Essay, and Case Conceptualization. This will be an in-class, open-book, written exam, using critical thinking, on the theoretical and content information of the lectures/discussions and reading materials on the cognitive assessment of adults and children and on the practical clinical application of cognitive assessment with clients.
  
6. Optional Extra Credit Paper: Students may submit an extra credit paper by the beginning of last class of the term for up to 10 additional points to be applied to the final exam score. This five-page (double-spaced and typed) paper must involve examination of a cognitive assessment topic beyond the course coverage, with citations.
  
5. A course grade of C+ or lower will require the student to retake the course to continue with the program.

**Grading:**

Method	% of Grade
Report 1 & Video – WAIS-IV Adult	20
Report 2 & Video -- WISC-V Child	20
Report 3 – SB5 Adult or Child	20
Laboratory Performance (Pass/Fail Mastery)	10 (Pass)
Quizzes	10
Final Exam	20
Total:	100

**Grading Scale (final scores > .5 will be rounded up)**

A = 90 – 100

B = 80 – 89

C = 70 – 79

F = 69 and below

**Course Policies****Instructor and Student Communication**

Questions for this course can be emailed to the instructor. Online, in-person, and phone conferences can be arranged. Response time will take place up to 2 days.

**Cell phones, tablets, and laptops**

Out of consideration for your classmates, please set your cell phone to silent mode during class. Students are encouraged to bring laptops or tablets to class as the instructor will assign online activities and readings that will require the use of a laptop or tablet. Laptops and tablets should not be misused, such as checking distracting websites. Use your best judgment and respect your classmates and instructor.

**Disability Access**

If you need individual accommodations to meet course outcomes because of a documented disability, please speak with me to discuss your needs as soon as possible so that we can ensure your full participation in class and fair assessment of your work. Students with special needs who meet criteria for the Americans with Disabilities Act (ADA) provisions must provide written documentation of the need for accommodations from the Counseling Center by the end of week three of the class, in order for instructors to plan accordingly. If a student would like to determine if they meet the criteria for accommodations, they should contact the Counseling Center at (808) 735-4845 or email [counselingcenter@chaminade.edu](mailto:counselingcenter@chaminade.edu) for further information.

**Title IX Compliance**

Chaminade University of Honolulu recognizes the inherent dignity of all individuals and promotes respect for all people. Sexual misconduct, physical and/or psychological abuse will NOT be tolerated at CUH. If you have been the victim of sexual misconduct, physical and/or psychological abuse, we encourage you to report this matter promptly. As a faculty member, I am interested in promoting a safe and healthy environment, and should I learn of any sexual misconduct, physical and/or psychological abuse, I must report the matter to the Title IX Coordinator. If you or someone you know has been harassed or assaulted, you can find the appropriate resources by visiting Campus Ministry, the Dean of Students Office, the Counseling Center, or the Office for Compliance and Personnel Services.

**Attendance Policy**

Students are expected to attend regularly all courses for which they are registered. Student should notify their instructors when illness or other extenuating circumstances prevents them from attending class and make arrangements to complete missed assignments. Notification may be done by emailing the instructor's Chaminade email address, calling the instructor's campus extension, or by leaving a message with the instructor's division office. It is the instructor's prerogative to modify deadlines of course requirements accordingly. Any student who stops attending a course without officially withdrawing may receive a failing grade.

Unexcused absences equivalent to more than a week of classes may lead to a grade reduction for the course. Any unexcused absence of two consecutive weeks or more may result in being withdrawn from the course by the instructor, although the instructor is not required to withdraw students in that scenario. Repeated absences put students at risk of failing grades.

Students with disabilities who have obtained accommodations from the Chaminade University of Honolulu ADA Coordinator may be considered for an exception when the accommodation does not materially alter the attainment of the learning outcomes. Federal regulations require continued attendance for continuing payment of financial aid. When illness or personal reasons necessitate continued absence, the student should communicate first with the instructor to review the options. Anyone who stops attending a course without official withdrawal may receive a failing grade or be withdrawn by the instructor at the instructor's discretion.

### **Academic Conduct Policy**

Any community must have a set of rules and standards of conduct by which it operates. At Chaminade, these standards are outlined so as to reflect both the Catholic, Marianist values of the institution and to honor and respect students as responsible adults. All alleged violations of the community standards are handled through an established student conduct process, outlined in the Student Handbook, and operated within the guidelines set to honor both students' rights and campus values.

Students should conduct themselves in a manner that reflects the ideals of the University. This includes knowing and respecting the intent of rules, regulations, and/or policies presented in the Student Handbook, and realizing that students are subject to the University's jurisdiction from the time of their admission until their enrollment has been formally terminated. Please refer to the Student Handbook for more details. A copy of the Student Handbook is available on the Chaminade website.

For further information, please refer to the Student Handbook at <https://studentaffairs.chaminade.edu/>

All sources must be documented through normal scholarly references/citations and all work must be submitted using the *Publication Manual of the American Psychological Association, 6<sup>th</sup> Edition* (2010). Washington DC: American Psychological Association (APA) format. Please refer to Appendix A in the *Publication Manual of the American Psychological Association, 6<sup>th</sup> Edition* for thesis and paper format.

Scholarly writing: The faculty at the Hawai'i School of Professional Psychology at Chaminade University of Honolulu is dedicated to providing a learning environment that supports scholarly and ethical writing, free from academic dishonesty and plagiarism. This includes the proper and appropriate referencing of all sources. You may be asked to submit your course assignments through "Turnitin," ([www.turnitin.com](http://www.turnitin.com)), an online resource established to help educators develop writing/research skills and detect potential cases of academic dishonesty. Turnitin compares submitted papers to billions of pages of content and provides a comparison report to your instructor. This comparison detects papers that share common information and duplicative language.
