### **Catalog Course Description**

PSY 603 is the first benchmark class in which the MSCP faculty observes the actual interpersonal skills and competencies of the students. This course is designed to introduce students to the study of the profession of counseling and to provide systematic training in basic counseling skills. It provides an overview of the core MPCAC (Masters in Psychology and Counseling Accreditation Council) curriculum areas, with extensive emphasis on basic counseling skills development.

### **Program Linking Statement**

This course develops and assesses the skills and competencies for the MSCP program core student-learning outcome of: student will 1) Identify core counseling theories, principles, concepts, techniques and facts; 2) Demonstrate the ability to facilitate the counseling process with clients and 3) Identify the relationship between adaptation and change and the counseling process.

### **MSCP Core Program Learning Outcomes (PLOs)**

1. Students will identify core counseling theories, principles, concepts, techniques and facts.
2. Students will demonstrate the ability to facilitate the counseling process with clients.
3. Students will identify the relationship between adaptation and change and the counseling process.

### **Student Learning Outcomes**

Students will demonstrate their skills and knowledge of:

1. The skills of attending, listening, and reflecting client experience through focusing the client, questioning techniques, and interpreting client report data. (PLO#2)
2. How to conduct specific components of counseling sessions, including the introduction, establishing consent, psychosocial history, formulating homework assignments, and termination. (PLO#2)
3. How to efficiently and succinctly document counseling sessions in a typical chart format, i.e., DAP (description, assessment, and plan). (PLO#1)
4. How to formulate a case and present a case to peers in an efficient and succinct manner. (PLO#1)
5. How the student's own personality and interpersonal style contributes to the manner in which he/she approaches/conducts counseling sessions. (PLO#3)
6. How to accept and act on feedback from the instructor and from peers. (PLO#2)
7. Social, cultural diversity and how that affects assessment and the counseling process. (PLO#3)
8. How research and the scientific method contributes to our ability to evaluate counseling outcomes. (PLO#1)
9. Professional/ethical issues such as confidentiality, informed consent, duty to inform and other common issues found in counseling. (PLO#1)
10. Counseling skills in the context of the student's specific emphasis, i.e., school, mental health, and marriage and family counseling. (PLO#3)

### **(6) Competencies in the Counselor Fitness**

- **Humility & Openness**  
Counseling performance enhanced by acceptance of new information, empathizing with others' opinions, experiences, and reality, seeking out new learning experiences, keen curiosity about new/novel situations.
- **Reflexivity**  
Counseling performance enhanced by designing and taking ownership of a personal/professional development plan by engaging in a continual process of reflection, critical thinking, and self-assessment by using various forms of feedback about one's own effectiveness, being receptive, and responding professionally to feedback, including assessment data, supervision and consultation, client feedback, personal therapy, and evidence-based research.
- **Psychological Flexibility & Adaptability**  
Counseling performance enhanced by the ability to flex to changing circumstances, and to adapt to fluctuating situational demands, unexpected events, and new situations, the dedication to positive-refocusing and reconfiguring mental resources and ultimately embracing challenges as opportunities to learn and grow.
- **Emotional Stability & Self-Control**  
Counseling performance enhanced by one's internal balance and maintaining a state of emotional stability, successfully separating one's personal feelings from one's clinical work, having a high tolerance for ambiguity and other people's expressed emotions, having an in-the-moment awareness of own emotional triggers and fluctuations, and engaging in impulse and self-control in relationships with clients, supervisors, and colleagues.
- **Self-Awareness, Self-Monitoring, & Self-Care**  
Counseling performance enhanced by a commitment to self-awareness and to honestly and objectively examine own belief systems, values, needs, biases, and limitations and the effects of "self" on one's work with clients while maintaining ethical and healthy boundaries, in addition to demonstrating an understanding of the importance of regularly monitoring and caring for self.
- **Empathy**  
Counseling performance enhanced by having a warm understanding and open-minded acceptance of others viewpoints, the ability to see things from another person's perspective, and a desire to truly understand their experiences of pain and injustice while creating an environment of cultural safety, and in counseling, the context is concerned with facilitating the expression of other's thoughts and feelings.

## **Articulation of Characteristics and Values**

PSY 603 Intro to Counseling Skills is guided by the Marianist educational value of Educate for Adaptation to Change. Through this course students apply counseling theories and modalities to individuals. Each individual is different and students gain knowledge in understanding peer behavior. Marianist universities readily adapt and change their methods. The following characteristics are demonstrated in the course:

- Flexible thinking
- Being respectful of differences
- Critical thinking
- Open-mindedness

Through the group counseling process, the attributes above will be demonstrated.

## **ACA Ethical guidelines for Self-Care and Self-Monitoring**

Given the 1) long-standing issue of problematic self-care and self-monitoring in the field of counseling, clinical psychology, and psychotherapy, 2) chronic stress demonstrated by many students in the current Covid-19 ever-changing, and uncertain environment, 3) fact that there appears there will be numerous stressed out clients as a result of the Covid 19 ever-changing, and uncertain environment, and 4) fact that the ACA requires self-care and self-monitoring as part of their ethical guidelines, all courses will include and address the following ACA guidelines in all of their syllabi. These guidelines also apply to all faculty and staff teaching in the MSCP program.

## **ACA 2014 Code of Ethics**

### **Section C: Professional Responsibility**

#### **Introduction**

... counselors engage in self-care activities to maintain and promote their own emotional, physical, mental, and spiritual well-being to best meet their professional responsibilities.

#### **C.2.g: Impairment**

Counselors monitor themselves for signs of impairment from their own physical, mental, or emotional problems and refrain from offering or providing professional services when impaired. They seek assistance for problems that reach the level of professional impairment, and, if necessary, they limit, suspend, or terminate their professional responsibilities until it is determined that they may safely resume their work. Counselors assist colleagues or supervisors in recognizing their own professional impairment and provide consultation and assistance when warranted with colleagues or supervisors showing signs of impairment and intervene as appropriate to prevent imminent harm to clients.

## **Students With Disabilities**

In compliance with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA) of 1990, and the ADA Amendments Act (2008), Chaminade University of Honolulu offers accommodations for individuals with disabilities. Effective August 1, 2020, Kōkua 'Ike: Center for Student Learning (Kōkua 'Ike), a unit within the Office of Advising and Career Development, provides academic and other accommodations for students with disabilities.

If one qualifies for ADA accommodations, the student will sign an ADA agreement. Each semester, the student will contact the ADA Coordinator to identify which instructors are to be notified.

Faculty will be sent a letter via email to inform them of the accommodations a student is to receive. However, the nature of a disability is confidential.

Once the appropriate documentation is received by the ADA Coordinator, please allow two to three weeks to process your paperwork. Processing time may vary pending the volume of requests received, and is compounded by the current challenges related to the mandatory stay-at-home order in Hawaii.

#### **Title IX**

Chaminade University recognizes the inherent dignity of all individuals and promotes respect for all people. Sexual misconduct will NOT be tolerated at Chaminade University. If you have been the victim of sexual misconduct, we encourage you to report this matter promptly. As a faculty member, I am interested in promoting a safe and healthy environment, and should I learn of any sexual misconduct, I must report the matter to the Title IX Coordinator. Should you want to report to a confidential source you may contact the following:

#### **Credit Hour Policy:**

The unit of semester credit is defined as university-level credit that is awarded for the completion of coursework. One credit hour reflects the amount of work represented in the intended learning outcomes and verified by evidence of student achievement for those learning outcomes. Each credit hour earned at Chaminade University should result in 45 hours of engagement. This equates to one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester, 10-week term, or equivalent amount of work over a different amount of time. Direct instructor engagement and out-of-class work result in total student engagement time of 45 hours for one credit. The minimum 45 hours of engagement per credit hour can be satisfied in fully online, internship, or other specialized courses through several means, including (a) regular online instruction or interaction with the faculty member and fellow students and (b) academic engagement through extensive reading, research, online discussion, online quizzes or exams; instruction, collaborative group work, internships, laboratory work, practica, studio work, and preparation of papers, presentations, or other forms of assessment. This policy is in accordance with federal regulations and regional accrediting agencies.

#### **Scientific Method Definitions**

The **METHODS OF SCIENCE** are only tools - tools that we use to obtain knowledge about phenomena.

The **SCIENTIFIC METHOD** is a set of assumptions and rules about collecting and evaluating data. The explicitly stated assumptions and rules enable a standard, systematic method of investigation that is

designed to reduce bias as much as possible. Central to the scientific method is the collection of data, which allows investigators to put their ideas to an empirical test, outside of or apart from their personal biases. In essence, stripped of all its glamour, scientific inquiry is nothing more **THAN A WAY OF LIMITING FALSE CONCLUSIONS ABOUT NATURAL EVENTS.**

Knowledge of which the credibility of a profession is based must be objective and verifiable (testable) rather than subjective and untestable.

**SCIENCE** is a mode of controlled inquiry to develop an objective, effective, and credible way of knowing.

The assumptions one makes regarding the basic qualities of human nature (that is, cognitive, affective, behavioral, and physiological processes) affect how one conceptualizes human behavior.

The two basic functions of scientific approach are 1) advance knowledge, to make discoveries, and to learn facts in order to improve some aspect of the world, and 2) to establish relations among events, develop theories, and this helps professionals to make predictions of future events.

*The above quotes were taken directly from:*                    Research Design And Counseling Heppner,  
Kivlighan, and Wampold

A **THEORY** is a large body of interconnected propositions about how some portion of the world operates; a **HYPOTHESIS** is a smaller body of propositions. **HYPOTHESES** are smaller versions of theories. Some are derived or born from theories. Others begin as researchers' hunches and develop into theories.

The **PHILOSOPHY OF SCIENCE** decrees we can only falsify, not verify (prove), theories because we can never be sure that any given theory provides the best explanation for a set of observations.

*The above quotes were taken directly from:*                    Research Method In Social Relations

Kidder

**THEORIES** are not themselves directly proved or disproved by research. Even **HYPOTHESES** cannot be proved or disproved directly. Rather, research may either support or fail to support a particular hypothesis derived from a theory.

Scientific research has four general goals: (1) to describe behavior, (2) to predict behavior, (3) to determine the causes of behavior, and (4) to understand or explain behavior.

*The above quotes were taken directly from:*                    Methods In Behavioral Research Cozby

In order to verify the reliability and validity of scientific research it is important to replicate the results. It is the preponderance of evidence that establishes/supports the theory.

### **Marianist Educational Values**

***Chaminade University is a Catholic, Marianist University. The five characteristics of a Marianist education are:***

#### **1. Educate for Formation in Faith**

Catholic Universities affirm an intricate relationship between reason and faith. As important as discursive and logical formulations and critical thinking are, they are not able to capture all that can be and ought to be learned. Intellectual rigor, coupled with respectful humility, provide a more profound preparation for both career and life. Intellectual rigor characterizes the pursuit of all that can be learned. Respectful

humility reminds people of faith that they need to learn from those who are of other faiths and cultures, as well as from those who may have no religious faith at all.

## **2. Provide an Excellent Education**

In the Marianist approach to education, “excellence” includes the whole person, not just the technician or rhetorician. Marianist universities educate whole persons, developing their physical, psychological, intellectual, moral, spiritual and social qualities. Faculty and students attend to fundamental moral attitudes, develop their personal talents and acquire skills that will help them learn all their lives. The Marianist approach to education links theory, practice, liberal and professional education. Our age has been deeply shaped by science and technology. Most recently, information and educational technologies have changed the way faculty and students research and teach. At Marianist Universities, two goals are pursued simultaneously: an appropriate use of information technology for learning, and the enhancement of interaction between students and teachers. As Catholic, Marianist Universities seek to embrace diverse peoples and understand diverse

cultures, convinced that ultimately, when such people come together, one of the highest purposes of education is realized: a human community that respects every individual within it.

## **3. Educate in Family Spirit**

Known for their strong sense of community, Marianists have traditionally spoken of this sense as “family spirit.” Marianist educational experience fosters the development of a community characterized by a sense of family spirit that accepts each person with loving respect, and draws everyone in the university into the challenge of community building. Family spirit also enables Marianist universities to challenge their students, faculty and staff to excellence and maturity, because the acceptance and love of a community gives its members the courage to risk failure and the joy of sharing success.

## **4. Educate for Service, Justice, and Peace**

The Marianist approach to higher education is deeply committed to the common good. The intellectual life itself is undertaken as a form of service in the interest of justice and peace, and the university curriculum is designed to connect the classroom with the wider world. In addition, Marianist universities extend a special concern for the poor and marginalized and promote the dignity, rights and responsibilities of all people.

## **5. Educate for Adaptation to Change**

In the midst of rapid social and technological change, Marianist universities readily adapt and change their methods and structures so that the wisdom of their educational philosophy and spirituality may be transmitted even more fully. “New times call for new methods,” Father Chaminade often repeated. The Marianist university faces the future confidently, on the one hand knowing that it draws on a rich educational philosophy, and on the other fully aware for that philosophy to remain vibrant in changing times, adaptations need to be made.

*Selected from Characteristics of Marianist Universities: A Resource Paper, Published in 1999 by Chaminade University of Honolulu, St. Mary’s University and University of Dayton*

Each of these characteristics is integrated, to varying degrees, in this course.

### **Attendance**

**If you miss more than one class, regardless of reason, you will be given a “C” and you must retake the class. (This is graduate programs policy.)**

### **Academic Honesty**

Academic honesty is an essential aspect of all learning, scholarship, and research. It is one of the values regarded most highly by academic communities throughout the world. Violations of the principle of academic honesty are extremely serious and will not be tolerated.

Students are responsible for promoting academic honesty at Chaminade by not participating in any act of dishonesty and by reporting any incidence of academic dishonesty to an instructor or to a University official. Academic dishonesty may include theft of records or examinations, alteration of grades, and

plagiarism. Questions of academic dishonesty in a particular class are first reviewed by the instructor, who must make a report with recommendations to the Dean of the Academic Division. Punishment for academic dishonesty will be determined by the instructor and the Dean of the Academic Division and may range from an 'F' grade for the work in question to an 'F' for the course to suspension or dismissal from the University.

### **Class structure**

PSY 603 Intro to Counseling Skills is intended to provide students with training in the fundamental skills required for counseling, and counseling-related tasks, such as documentation, case conceptualization, and case presentation. Emphasis will be placed on developing competencies in skills (sometimes referred to as micro skills) in:

- Attending behavior
- Observation
- Encouraging
- Paraphrasing
- Summarizing
- Reflection of feeling
- Reflection of meaning
- Questioning
- Counselor's personal response
- Confrontation
- Openness to feedback/supervision
- Ability to incorporate feedback

Students will be actively participating in role-playing, video recording, and dyads in a counseling context. Students will also be providing feedback to their peers based on peers' demonstrated counseling skills as documented on the Counseling Skills Proficiency Record. Feedback is meant to provide data to students as a means for improvement and growth as a counselor.

**Course Website Address (Canvas):** <https://chaminade.instructure.com/>

**Hardware Requirements:** A video and audio enabled device (laptop, desktop, camera phone) is required. Canvas is accessible from both PC and Mac computers with a reliable internet connection. You will also need to be able to access video from some external websites or files posted within this course.

**Software Requirements:** You will need to have some ability play videos or audio (RealPlayer, Windows Media Player, Quicktime, etc.). You will also need to be able to read .pdf files (via Acrobat Reader or similar). These can be downloaded without additional costs.

### **Grading Scale**

Final grades will be determined based on the following:

<u>Assignment</u>	<u>Points</u>
Counseling Skills Proficiencies*	36
Counseling Fitness Survey	10
Dyad Skills Session Documentation	30 (6 @ 5 pts each)
Case Summary	25
Counselor Competencies Reflections	60 (6 @ 10pts each)
