Course Learning Outcomes (CLOs)

1. Articulate an understanding of the dynamics associated with healthy and unhealthy relationships related to relationship and family science research.
2. Describe the role of family of origin in the development of healthy and unhealthy dynamics.

4. Identify social and cultural influences and diverse contexts on relationship quality, especially in the area(s) of gender and power differences.
5. Analyze the research literature in relation to relationships and synthesize the findings to answer a question related to relationships.
6. Connect the concepts of healthy relationships learned in the course with the Marianist Educational values.

Marianist Values

This class represents one component of your education at Chaminade University of Honolulu. An education in the Marianist Tradition is marked by five principles and you should take every opportunity possible to reflect upon the role of these characteristics in your education and development:

1. Education for formation in faith.
2. Provide an integral, quality education.
3. Educate in family spirit.
4. Educate for service, justice and peace, and integrity of creation.
5. Educate for adaptation and change.

PSY 458 Psychology of Relationships is guided by the Marianist educational values of *Educate in Family Spirit* and *Educate for Service, Justice and Peace*. This course provides a framework for enhancing relationships on both a micro and macro level, within oneself and within one's community. Reflective writing assignments invite students to apply healthy relationship concepts to their own lives and to reflect upon building and sustaining family, healthy relationships, and community (CLOs 2 and 3). The course also uses critical thinking and analysis of research to examine relationship topics toward the broader goal of promoting acceptance, genuineness, care, and equality, and the final research project helps students understand the responsibility that comes with the power of research and how to use it to promote the dignity, rights, and responsibilities within relationships (CLOs 3, 4, and 6).

Native Hawaiian Values

Education is central to both Marianist and Native Hawaiian culture — both seek transformative, value-centered learning that serves the marginalized. This is reflected in the 'Ōlelo No'eau (Hawaiian proverbs) below:

1. **Educate for Formation in Faith (Mana):** E ola au i ke akua ('Ōlelo No'eau 364) — May I live by God.
2. **Provide an Integral, Quality Education (Na'auao):** Lawe i ka ma'alea a kū'ono'ono ('Ōlelo No'eau 1957) — Acquire skill and make it deep.
3. **Educate in Family Spirit ('Ohana):** 'Ike aku, 'ike mai, kōkua aku kōkua mai ('Ōlelo No'eau 1200) — Recognize others, be recognized, help others, be helped.
4. **Educate for Service, Justice and Peace (Aloha):** Ka lama kū o ka no'eau ('Ōlelo No'eau 1430) — Education is the standing torch of wisdom.
5. **Educate for Adaptation and Change (Aina):** 'A'ohe pau ka 'ike i ka hālau ho'okahi ('Ōlelo No'eau 203) — All knowledge is not taught in the same school.

- Meet established deadlines to support collaborative learning and remain on track with the weekly sequence.

Online Seminar Approach & Ground Rules

We will use an online seminar approach, incorporating class discussions through Canvas and/or Zoom. Students must complete the readings before posting to any discussion; otherwise, the discussions will not be informed ones. Because of the nature of the material, there is likely to be some lively discussion and some disagreement on issues, and some people may feel uncomfortable or upset by some of the material. To support a respectful learning community, please follow these ground rules:

- Acknowledge that people in our culture have different experiences based on race, ethnicity, class, sex, age, and sexuality.
- Think psychologically about the issues we tackle and be prepared to critically analyze your own opinions and beliefs.
- Agree that this course should be a place where no one is made to feel embarrassed or ashamed. Disrespectful behavior will not be tolerated, and no attacks that might be deemed personal should be made on the discussion boards. Healthy discussion and debate are welcome and encouraged. We do not have to agree with one another, but we must be able to discuss our differences respectfully.

General Participation

Students are responsible for all material posted each week. This course requires a fair amount of reading and video viewing, so plan your study time wisely. Before any class discussion, students are expected to have engaged the material so that they come prepared with questions and reflections, which supports coherent participation. Although specific readings and videos are assigned each week, students are encouraged to consider and discuss comparisons and disparities among the readings and videos.

Email Guidelines

- Use your Chaminade email account and always include a subject line.

- Remember that without facial expressions some comments may be taken the wrong way. Be careful in wording your emails; emoticons may be helpful in some cases.
- Use standard fonts. Avoid special formatting such as centering, audio messages, tables, or HTML unless necessary to complete an assignment or other communication.

Community of Practice Communication Guidelines

- Do not make insulting or inflammatory statements. Be respectful of others' ideas.
- Be patient and read the comments of others thoroughly before posting your remarks.
- Be positive and constructive.
- Consider how your posts help to further the discussion and/or meet the course learning outcomes.

Regular and Substantive Interaction (RSI) — Instructor Commitments

- **Weekly Communication:** Weekly announcements and/or module overviews clarifying objectives, key concepts, and assignment expectations.
- **Substantive Engagement:** Instructor-facilitated discussion engagement — prompting analysis, clarifying misunderstandings, connecting posts to course concepts, summarizing takeaways.
- **Timely Feedback:** Clear grading criteria and substantive feedback on all graded work.
 - Email inquiries: response within 48 hours during the regular work week (see Communication policy above)
 - Weekly graded work (discussions, assignments): within 5 school days of the due date
 - Major assessments/projects: within 5 school days of the due date
- **Monitoring & Outreach:** Active monitoring of Canvas engagement with proactive outreach and referrals for students who miss deadlines or fall behind.

Late Work	This is a self-paced Flex course, so most assignments may be turned in at your convenience, but all work is due before your course section ends (confirm the end date in Self-Service). Milestone 1 (Pre-Quiz) is a firm deadline; if it is late, you may be dropped from the class. Milestone 2 (Exam 1) is also a firm deadline. Late work and extensions are considered at my discretion and should be requested before the deadline whenever circumstances reasonably permit.
Extra Credit	No extra credit is available in this course.
Incomplete Grade	If you are unable to complete the course due to circumstances beyond your control, I will consider offering a grade of "Incomplete." An Incomplete is not automatic. If granted, it provides you with 90 days beyond the end of the term to complete all outstanding course requirements. A grade of "Incomplete" must be discussed with me before the end of the term ; if you do not contact me by then to discuss the possibility of an Incomplete, you will be awarded the grade you have earned to that point.

Writing Standards & Citations

Writing Standards

All work submitted by Chaminade University students must meet the following writing standards. Written assignments should:

- Use correctly the grammar, spelling, punctuation, and sentence structure of Standard Written English.
- Develop ideas, themes, and main points coherently and concisely.
- Adopt modes and styles appropriate to their purpose and audience.

- Be clear, complete, and effective.
- Carefully analyze and synthesize material and ideas borrowed from sources, and correctly acknowledge the sources of borrowed material to avoid plagiarism (see Academic Honesty).

Citations and References

Any assignment that includes cited research should include a Reference page listing your full sources. Use APA format (Times New Roman 12-pt font, double-spaced, with hanging indentation). Examples:

Book: Berger, P. L., & Luckmann, T. (1966). *The social construction of reality*. Harmondsworth, UK: Penguin.

Article: Goldsmith, D., & Baxter, L. A. (1996). Constituting relationships in talk: A taxonomy of speech events in social and personal relationships. *Human Communication Research*, 23, 87–114.

Chapter in an edited book: Hardy, K. V. (2008). Race, reality, and relationships: Implications for the re-visioning of family therapy. In M. McGoldrick & K. V. Hardy (Eds.), *Revisioning family therapy: Race, culture, and gender in clinical practice* (pp. 76–84). New York, NY: The Guilford Press.

Note the year of publication, the authors' last names and initials, the parentheses, the italicization of the source (book or journal title), and when page numbers are needed.

- Cite a source every time you copy a phrase, quote, or paraphrase someone else's words. If you use someone's words verbatim, use quotation marks and, in parentheses, note the author's last name, year of publication, and the page from which you took the quote.
- Example of a direct quote: "Past research has indicated that 'becoming parents heightens couples' awareness of their identity intersections and they turn towards mutually supporting each other'" (Hawkins, 2016, p. 121).
- If you paraphrase or report on what you have read of someone's publication, use the parentheses but omit the page number. Always use the (Author, Year) format.
- Refer to the *Publication Manual of the American Psychological Association* (7th ed.) for APA formatting requirements. The Purdue OWL (owl.purdue.edu) can also be helpful.

Important Information

Academic Honesty

Academic honesty is an essential aspect of all learning, scholarship, and research. It is one of

the values regarded most highly by academic communities throughout the world. Violations of the principle of academic honesty are extremely serious and will not be tolerated.

Students are responsible for promoting academic honesty at Chaminade by not participating in any act of dishonesty and by reporting any incidence of academic dishonesty to an instructor or to a University official. Academic dishonesty may include theft of records or examinations, alteration of grades, plagiarism, **and unauthorized and/or undisclosed AI usage**, in addition to more obvious dishonesty. See catalog section *Student Use of Artificial Intelligence in Academic Work* for further information.

Questions of academic dishonesty in a particular class are first reviewed by the instructor, who must make a report with recommendations to the Director of the Academic College. Punishment for academic dishonesty will be determined by the instructor, Director, and the Dean of Academic College and may include an “F” grade for the work in question, an “F” grade for the course, academic notice, or dismissal from the University.

AI (Artificial Intelligence) Statement

Chaminade University recognizes the increasing role of artificial intelligence (AI) technologies in academic and professional environments. AI encompasses, but is not limited to, generative AI platforms, automated writing or content generation software, coding assistants, and similar tools. Students must ensure all submitted work genuinely reflects their knowledge and effort. Using AI to produce or significantly complete graded assignments, exams or other academic tasks – defined as use that substitutes for or substantially replaces a student’s own analysis, reasoning or written expression – without explicit instructor approval is considered academic misconduct and will be dealt with according to the University’s Academic Honesty Policy.

If an instructor has reasonable grounds to question whether submitted work genuinely reflects a student’s own knowledge, authorship, or mastery of course material — or whether it meets the course’s expectations for AI use — the instructor may require the student to provide additional or alternative evidence of authorship and content mastery. Such evidence may include drafts, notes, revision history, source materials, process explanations, oral discussion, in class work, or completion of an alternative assessment. A student’s refusal or inability to provide such evidence may be considered, along with other available information, in evaluating whether the work meets course requirements and stated learning outcomes. Instructors will not rely solely on AI detection software or other automated tools in making grading or academic integrity determinations. Such determinations will be based on the totality of the available information and handled in accordance with applicable University policies and procedures. See the catalog section *Student Use of Artificial Intelligence in Academic Work* for further information.
