History 405: The African American Experience
Dr. Yamasaki

Course Description

The presence of African Americans profoundly affected the nature and development of our society. Their labor as slaves and sharecroppers helped to transform the young nation into an economic giant. Their suffering under segregation and racial prejudice awoke our national conscience. Their stories, music and spirit have helped to shape our nation's unique culture. This course examines the struggles and triumphs of African Americans and the role they played in shaping the history of the United States of America.

Course Objectives: After successfully completing this course, students will have...

- a working knowledge of the African Americans experience & its impact on America.
- refined their reading, writing, speaking & cognitive skills.
- engaged in learning that embodies cooperation, self-discipline & mutual respect.
- developed their concern for social justice, ethics & civic responsibility.

Course Requirements

- Actively participate in class meetings and turn in short writing assignments.
- Take a mid-term examination & a final examination.
- Write one book review.
- Turn in all assignments to instructor in class on the day that they are due. Papers turned into the instructor's mailbox, under his office door or left any where else will not be accepted. No late papers are accepted for short writing assignments. For the book review, 5 points will be deducted for each class meeting beyond the due date.

Grades

- Class activities, discussions, short writing assignments 100 points.
 - Two mid-term examinations 100 points.
 - Final examination 100 points.
 - Book review 100 points.
- (370-400 points = A; 330-369 = B; 280-329 = C; 240-279 = D; Below 240 = F.)

Required Texts

James Horton & Lois Horton, *A History of the African American People*.
