

AutoCAD LT 2002 is a powerful scaled-down version of AutoCAD (Full Version). However, its 2-dimensional output ability is similar. Files produced are 100% compatible with AutoCAD.

The objective of this course is to introduce the student to the software, its (GUI) Graphical User Interface & its basic commands. The student will learn to utilize and apply the software within their respective field of study, to produce basic drawings for output. The student is encouraged to ask a lot of questions during lectures, and compile class notes for future reference.

Grading will be based on the ability to grasp the subject matter and proficiency.

- A = 100 - 091
- B = 090 - 081
- C = 080 - 071
- D = 070 - 061
- F = 060 or Below
