FD99

Math 103

Instructor: Edward J Reiser.

Office Hours: To be announced.

Text Book: Algebra for College Students.

Author : Gustafson / Frisk.

Course Description: The following material will be covered. Basic Algebra, polynomials, quadratic formula, coordinate system functions, lines circles, conic sections.

Homework: Homework will be assigned every class, and collected before every test. Every class we will have a quiz based on the class work. If the student is having difficulty with their homework problems, they can ask questions at the beginning of class.

Quizzes: Quizzes will be given every class. The problems will be based on homework problems. There may be some take home Quizzes.

Exams: There will be two test and a final. The problems on the tests and final will be very similar to the homework problems.

Final: There will be a cumulative final exam. The final exam is worth 40% of your grade.

Grading:

Attendance and Quizzes	30 %
MidTerm	30 %
Final	40%
