Text: Adolescence, eighth edition By John W. Santrock McGraw Hill

Description of Course:

Adolescent Psychology is an exciting field that constantly challenges both young people and adults. Adolescents are full of energy and always experimenting with new ideas and things. They are on a quest to find out who they are as individuals and members of society.

The course will cover many different facets of adolescents. We will look at some developmental theories, delve into family life and peer groups, and explore a variety of issues confronting teens in America today.

I would like you to leave this course excited about the prospect of working with teens and ready to experience the joy and enthusiasm of your own teens.

Students are responsible for:

- Keeping up with the text readings,
- Being active participants in class discussions,
- Attend class regularly,
- Take tests on scheduled dates, and
- Obtain a copy of the class notes form another student when absent.

A note on attendance:

Each of you brings a rich history and unique perspective to the class that can be shared in activities and class discussions. This course has been designed to maximize class activities and discussions. It is difficult to duplicate these discussions in a classmate's notes. Therefore, regular attendance is highly recommended. Your participation is an important part of this class and some of the information covered during class may not be in the text and may appear on a test.

It is also highly suggested that you read the chapters prior to class. Reading the material will allow you time to ponder what you have read, reflect on how the information may have affected your life and bring any questions to class. Grading:

We will have 3 tests throughout this course. The tests will be essay questions and graded using the attached rubrics. The questions will be taken from the reading assignments, lectures, and/or any class activities. Each test will be worth 100 points. The total number of possible points you can earn for this course is 300.

If you take an exam after the scheduled date, you could be penalized up to 10 points.

270 - 300 points	90%	A
240 – 269 points	80%	В
210 - 239 points	70%	С
180 - 209 points	60%	D
<180 points		F

Extra Credit will be assigned on an individual basis as needed and at the discretion of the instructor.
