Overview: This course will target the world of Computer Aided Design & Drafting (CADD) and how it is used more & more today by design professionals around the world. The focus in this course will be about how CADD is an essential communications tool for Interior Design. AutoCAD LT 97 is the 2D equivalent to AutoCAD Release 14, and is probably the most cost effective and productive industry program suitable for interior designers today.

This course aims to give students a thorough introductory understanding of and a hands-on competency in AutoCAD LT 97, which will be presented in a format familiar to both design students and practicing interior designers.

Areas in which the class will focus on will mainly be based on the basic understanding of common commands, techniques & implementation into Interior Design.
